

YELLOW-BLUE-BLACK (10/14/70) R43

CAUTION Contents under pressure. Do not puncture. Do not use near heat or open flame. Exposure to temperatures above 130 F may cause bursting. Never throw container into fire or incinerator. Do not spray directly on tile, plastic or wallpaper.

DIRECTIONS

Crawling Insects (Roaches, Waterbugs, Bed Bugs, Ants, Silverfish, Spiders) Spray when ever insects might be present, such as under sinks, stoves, drain boards, cracks, on baseboards, crevices, around door thresholds, window frames, and baseboards of high areas. For Bedbugs, thoroughly spray bed and mattress as well. Always use the product used directly with spray.

Flying Insects (Flies, Mosquitoes, Gnats, Hornets, Wasps) Use at the rate of 3-5 seconds per 1000 cu ft.

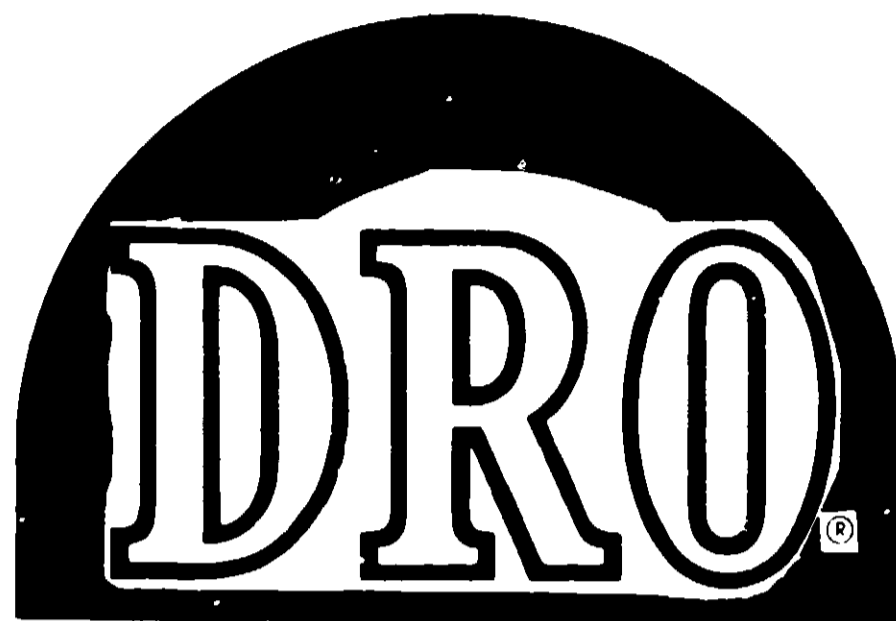

Remedies (Earls, Fleas, etc.) Use after spraying.

Close doors and windows and treat scrub all parts of room with sweeping and vacuumation. Hit insects directly when possible. Keep room closed for 15 minutes after spraying. Do not remove treated items. Ventilate thoroughly after treatment is complete.

On this product, all insects should be dead and flying immediately before spraying. Spray products thoroughly in a distance of about 2 feet from treated surface. Do not spray on walls, baseboards, or other surfaces of dining, sleeping, or sitting areas. Do not spray on plastic, synthetic, or other flammable materials. Do not spray on treated or untreated surfaces.

HOME AND INDUSTRIAL FACTORIES AND FOOD ESTABLISHMENTS Because of the toxicity of this product, it should be used only when necessary and in accordance with the following instructions: 1. Do not use in nurseries or rooms where infants, ill or aged persons are confined. 2. Do not use in food processing areas, apply only when plant is not in operation. Foods should be removed or covered during treatment and food processing surfaces should be thoroughly cleaned before using.

CAUTION When using this product in food processing areas, apply only when plant is not in operation. Foods should be removed or covered during treatment and food processing surfaces should be thoroughly cleaned before using.
