1997

Attention Richard W Wall

Subject Grant's Ant Control
EPA Reg No 1663-15
Your letter of January 13, 1997
Our letter of December 17, 1996

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable provided that you make the following changes and submit one (1) copy to us before you ship your product

- 1 Since all suggested placement sites must be in areas inaccessible to children, pets, and other nontarget organisms and in areas where food/feed will not be contaminated, you must delete these unqualified sites
 - a Kitchens, Bathrooms [Inaccessible areas in kitchens is acceptable]
 - b Counter tops
 - c Next to Food/Near Food
 - d Cubbards
- 2 Also, you cannot use the term, "Safe to use" as it is an implied safety claim
- 3 Put the ingredient statement on the 'Front Panel
- 4 Your cannot use the phrase "child resistant" as your product did not pass the current protocol
- 5 The use of the term "bait station" does not seem to add anything to the term 'ant stake' It should be deleted The following phrase would be acceptable
 - 10 Ant Stakes (with bait sealed in metal capsule)

2/7

6 Wherever it occurs, change

Do not put stakes (bait stations) in places accessible to children

to

Place stakes only in places inaccessible to children, pets, and other nontarget organisms

7 On the top of Page 2, the heading should read

To help control Aphids and Scale in home ornamentals

8 Change the second sentence on Page 2 to read

To increase effectiveness of stakes pour a few drops of warm water directly into access hole

9 Change "Statement of Practical Treatment" to "First Aid"

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e) Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions

A stamped copy of the labeling is enclosed for your records

Sincerely yours,

William W Jacobs, PhD

GUARANTEED TO WORK

Back Panel

Grant's Ant Control System kills ants now... and helps prevent their return

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions: For use in and around homes to control ants. Also for use in home ornamental flower, shrub and tree gardens to help control aphids and scale. Not for use in vegetable gardens. Do not contaminate food or feed.

Do not put stakes (bait stations) in places accessible to children

Application Directions:

To control ants in and around homes

Outdoors: Surround house with stakes (bait stations), six to eight feet apart on all sides. Place stakes (bait stations) at both sides of all outside doors and all corners. Larger homes or buildings may require more than one package.

Indoors: Place stakes (bait stations), hole side up, under sinks, on counters, behind appliances and along ant trails. This product is not to be placed in areas accessible to children.

To help control Aphids and Scale *Up low 3. 2. 2.*

Place stakes (bait stations) in beds, rows and along ant trails. Also put stakes at the base of ornamental trees, flowers and shrubs.

To increase effectiveness of stakes (bait stations), pour a small amount of warm water into access hole. ?

GRANT'S starts to work immediately. Some ants die in hours. Larger colonies may take a week or longer. GRANT'S works until ants have taken away all the poison (bait). For continuing protection, replace stakes every three to six months, or sooner if stakes are empty.

Pre-cut hole provides ants access to poison (bait)

Stake (bait station) is designed to push easily into ground, or be laid flat indoors, on hard ground, patios and decks.

E.P.A. Reg. No. 1663-15

E.P.A. Est. No. 1663-CA-1

Manufactured by Grant Laboratories, Inc., San Leandro, CA 94578

Side Panel

GRANT'S KILLS ANTS® in their home, not yours.

GRANT'S Ant Control System

contains a special formula that attracts scout ants seeking food for their colony. They take the poison (bait) back home, where it is eaten by both the queen and the worker ants. The colony stops reproducing and begins to die. The weakened or destroyed colony can no longer infest your home.

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

CAUTION:

Harmful if swallowed or absorbed through skin. Wash hands thoroughly after handling. Avoid contamination of feed and food stuff. Keep away from children and pets.

STATEMENT OF PRACTICAL TREATMENT:

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching the back of throat with a finger. Do not induce vomiting or give anything by mouth to an unconscious person.

IF ON SKIN: Wash skin with soap and water.

ENVIRONMENTAL HAZARDS: This product is toxic to fish, birds and other wildlife. Do not apply directly to water.

STORAGE AND DISPOSAL

STORAGE: Store only in original container, in a dry place inaccessible to children and pets.

DISPOSAL: Do not reuse empty container. Securely wrap in newspaper and discard in trash.
