Attention: Richard W. Wall

Subject: Grant's Ant Control
EPA Reg. No. 1663-15
Your letter of July 11, 1997

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable provided that you make the following changes and submit one (1) copy to us before you ship your product:

1. As requested in your letter, you may use the following alternative wording on your proposed labeling:
 - a. "outdoors" for "outside"
 - b. "indoors" for "inside"
 - c. "ant baits" for "bait stations"
 - d. "bait" for "poison"
 - d. "back" for "side"

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Sincerely,

Daniel B. Peacock, Biologist
Product Manager Team 14
Insecticide-Rodenticide Branch
Registration Division (7504C)

Grant's Ant Control System kills ants now... and helps prevent their return

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions: For use in and around homes to control ants. Also for use in home ornamental flower, shrub and tree gardens to help control aphids and scale. Not for use in vegetable gardens. Do not contaminate food or feed.

Place stakes (bait stations)(ant baits) only in places inaccessible to children, pets and other non target animals

Application Directions:

To control ants in and around homes

5/3

Outdoors: Surround house with stakes (bait stations)(ant baits), six to eight feet apart on all sides. Place stakes (bait stations)(ant baits) at both sides of all outside doors and all corners. Larger homes or buildings may require more than one package.

Indoors: Place stakes (bait stations)(ant baits), hole side up, under sinks, on counters, behind appliances and along ant trails. Place stakes (bait stations)(ant baits) only in places inaccessible to children, pets and other non target animals .

To help control Aphids and Scale in home ornamentals

Place stakes (bait stations)(ant baits) in beds, rows and along ant trails. Also put stakes at the base of ornamental trees, flowers and shrubs.

To increase effectiveness of stakes (bait stations)(ant baits), pour a few drops of warm water into access hole.

GRANT'S starts to work immediately. Some ants die in hours. Larger colonies may take a week or longer. GRANT'S works until ants have taken away all the poison (bait). For continuing protection, replace stakes every three to six months, or sooner if stakes are empty.

Pre-cut hole provides ants access to poison (bait)

Stake (bait station)(ant bait) is designed to push easily into ground, or be laid flat indoors, on hard ground, patios and decks.

Manufactured by Grant Laboratories, Inc., San Leandro, CA 94578

Side Panel

GRANT'S KILLS ANTS® in their home, not yours.

GRANT'S Ant Control System

contains a special formula that attracts scout ants seeking food for their colony. They take the poison (bait) back home, where it is eaten by both the queen and the worker ants. The colony stops reproducing and begins to die. The weakened or destroyed colony can no longer infest your home.
