JAN 23 2002
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 1663-15

Kills the Queen

GRANT'S ANT CONTROL

GRANT'S KILLS ANTS

GRANT'S™ Ant Control System

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Use Restrictions: For use in and around homes to control ants. Not for use in vegetable gardens. Do not contaminate food or feed.

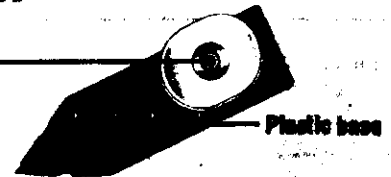

APPLICATION DIRECTIONS

To control ants in and around homes.

Outdoors: Place ant stakes around the periphery of homes at locations inaccessible to children, pets, and other non-target animals. Larger buildings may require another package.

Indoors: Place ant stakes, hole side up, under sinks, behind appliances, and along ant trails in inaccessible areas.

Pre-cut hole provides ants access to bait.

GRANT'S™ Ant Control System contains a special formula that attracts scout ants seeking food for their colony. They take the bait back home where it is eaten by both the queen and the worker ants. The colony stops reproducing and begins to die. The weakened or destroyed colony can no longer infest your home.

GRANT'S STARTS TO WORK IMMEDIATELY

Kills ants now and helps prevent their return. Some ants die in hours. Larger colonies may take a week or longer. GRANT'S works until ants have taken away all the bait. After ants are controlled, properly dispose of stakes. Place in resealable plastic bag, wrapped in newspaper, and place in trash. If ants reappear, replace stakes with new ones.

FIRST AID

Have label with you when obtaining treatment advice

- If swallowed:
 - Call a poison control center, doctor immediately for treatment advice.
 - Have person sip a glass of water if able to swallow.
 - Do not induce vomiting unless told to do so by the poison control center or doctor.
- If on skin or clothing:
 - Take off contaminated clothing.
 - Rinse skin immediately with plenty of water for 15-20 minutes.
 - Call a poison control center, doctor immediately for treatment advice.
 - Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- If in eyes:
 - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
 - Call a poison control center, doctor immediately for treatment advice.

PRECAUTIONARY STATEMENTS HAZARD TO HUMAN AND DOMESTIC ANIMALS

CAUTION
