ANT TRAP

KILLS WITH KEPONE*

KILLS SWEET & GREASE EATING ANTS

Works indoors and out. Ants enter trap and carry food back to nest. Kills entire colony. No mess. Convenient. easy to use.

TO USE

INDOORS:

Punch in all side holes. Place traps behind refrigerators, in cupboards, under sinks, at entry points and other areas where ants are visible. Replace traps as necessary.

OUTDOORS:

Place traps at outside entry points, along trails and around nest areas, from 8 to 12 feet apart. Place sufficient numbers of traps for fast, effective control.

WARNING

KEEP OUT OF REACH OF CHILDREN AND DOMESTIC ANIMALS.

Hazardous if swallowed or absorbed through the skin. Do not get on skin, in eyes, or on clothing. Wash with soap and water after using and before eating and smoking. Do not contaminate feed or foodstuffs. Place in areas inaccessible to children and pets. Destroy container when empty.
