CAUTION: Harmful if swallowed, inhaled or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to wildlife and aquatic invertebrates. Birds and small mammals feeding on treated bait may be killed. Do not apply directly to water. Do not contaminate water by disposal of wastes. Do not apply as a landscape treatment to lawns, shrubs or trees, and garden plants.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Grant's Ant Control System kills ants now...and helps prevent their return.
GRANT'S KILL ANTS® in their home, not yours.

GRANT'S Ant Control System contains a special formula that attracts scout ants seeking food for their colony. They take the bait back home, where it is eaten by both the queen and the worker ants. The colony stops reproducing and begins to die. The weakened or destroyed colony can no longer infest your home.

Pre-cut hole provides ants access to bait.

Stake (bait station) (ant bait) is designed to push easily into ground, or be laid flat indoors, on hard ground, patios and decks.

Application Directions: Place stakes (bait stations) (ant baits) only in places inaccessible to children, pets and other non-target animals.

To control grease eating and sweet eating house ants in and around homes

Outdoors: Surround house with stakes (bait stations) (ant baits), six to eight feet apart on all sides. Place stakes (bait stations) (ant baits) at both sides of all outside doors and all corners. Larger homes or buildings may require more than one package.

Indoors: Place stakes (bait stations) (ant baits), hole side up, under sinks, on counters, behind appliances and along ant trails.

GRANT'S starts to work immediately. Some ants die in hours. Larger colonies may take a week or longer. GRANT'S works until ants have taken away all the bait. For continuing protection, replace stakes (bait stations) (ant baits) every 3 to 6 months, or sooner if stakes (bait stations) (ant baits) are empty.

Use Restrictions: Not for use in vegetable gardens. Do not contaminate food or feed. Not to be used around electrical equipment.

STORAGE & DISPOSAL

Storage: Store only in original container, in a dry place inaccessible to children and pets.

Disposal: *If empty* – Do not reuse this container. Place in trash or offer for recycling if available. *If partly filled* – Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling in contrary to label instructions.

Warranty: Guaranteed to work when used as directed.
