Subject: Label Amendment
Grant's Kill Ant Control A
EPA File Number: 1663-33
Application Dated: July 19, 2007
Decision: 813926

Dear Ms. Horton:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, amended is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted prior to releasing the product for shipment.

Page 2

The following marketing claim is considered to be a heightened efficacy claim and must be removed:

- That's why it's [the product is] guaranteed to work. Indoors and out.

Revise the last sentence, under the "DIRECTIONS FOR USE" to read: After ants are controlled, properly dispose of stakes according to the Disposal Statements on this label.

Page 3

Under the sub-heading Outdoors: Delete the following:

[Larger buildings may require additional package(s)].

A stamped copy of the label is enclosed.

Sincerely,

Richard Gebken
Product Manager
Insecticide Branch
Registration Division (7505P)

**PRECAUTIONARY STATEMENTS
ENVIRONMENTAL HAZARDS**

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by storage or disposal.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GRANT'S ANT CONTROL A [K]kills the following ants: Argentine, Black Carpenter, Cornfield, Little Black, Odorous House and Pavement ants.

GRANT'S ANT CONTROL A STARTS TO WORK [WORKING] IMMEDIATELY. Kills ants now and helps prevent their return. It is easy to use and has no insecticide odor. GRANT'S ANT CONTROL A contains a special formula that attracts scout ants seeking food for their colony. They take the bait back home where it is eaten by the queen and worker ants. The colony stops reproducing and begins to die. The weakened or destroyed colony can no longer infest your home. Some ants die in hours. Larger colonies may take a week or longer. GRANT'S works until ants have taken away all the bait. After ants are controlled, properly dispose of stakes.

[Optional formatting for small packaging]

A smart way to control ants. GRANT'S ANT CONTROL A destroys the entire ant colony, killing ants now and helping prevent their return. •Bait attracts scout ants seeking food for the colony. • Scout ants take bait back home where it is eaten by queen and worker ants. • Colony stops reproducing and begins to die. • Weakened or destroyed colony can no longer infest your home.

APPLICATION INSTRUCTIONS

To control ants around homes, ornamental gardens and flower beds. Always place ant bait stations/stakes at locations inaccessible to children, pets and other non-target animals. [Stake is designed to push easily into semi-soft ground or be laid flat on a hard surface indoors our outdoors.] [Ant station is designed to be laid flat, hole side up, on a hard surface indoors or outdoors.] [For best results, do not interfere with the ants or the bait stations during its use to help assure that ants carry the bait back to the colony to kill the queen and other ants.]

Outdoors: Place ant bait stations/stakes to ant trails and other [in] areas where ants are seen [around the home, including ornamental gardens and flower beds]. Use approximately [Place] one bait station/stake for each [every] 15-20 feet of area [to

4/4

be protected], depending on severity of infestation. Place near cracks or crevices, along sills or other areas around the periphery of the home where ants may gain entry. [Larger buildings may require additional package(s)]. For continuous control of ants, replace all bait stations/stakes after 6 weeks of use.

Indoors: Place ant bait stations/stakes – hole side up – in cabinets, under sinks, behind appliances, and along ant trails and other areas where ants are observed. If used in ground level cabinet, use child-proof fasteners on doors. For continuous control of ants, replace all bait stations/stakes after 3 months of use.

[Alternate Application Instructions formatted for small packaging]

Ant station is designed to be laid flat, hole side up, on a hard surface indoors or outdoors. Always place ant stations in locations inaccessible to children, pets and other non-target animals. **Indoors:** Place under sinks, behind appliances and along ant trails. If used in ground level cabinet, use child-proof fasteners on doors. **Outdoors:** Place in areas where ants are seen, such as near cricks, crevices or other areas around the periphery of the home where ants main gain entry. Place one bait every 15-20 feet of area. For continuous control of ants, replace all indoor ant stations after 3 months of use and outdoor ant stations after 6 weeks of use.

[calendar graphic: For continuous control of ants, replace all indoor bait stations/stakes after 3 months of use and outdoor bait stations/stakes after 6 weeks of use.]
