Liquid sodium hypochlorite sanitizer

Combats broad spectrum of organisms

Rapid kill

Aqueous solution assures ease of use

Clear, free rinsing

Ideal for automatic dispensing

XY-12 Liquid Sanitizer is formulated for applications requiring large volumes of chlorine for sanitizing. Minimal excess alkalinity is maintained in it to provide the most efficient use of the sodium hypochlorite as a sanitizer. This uniform aqueous solution is easily proportioned through sprayers, feeders, or chlorinators. It offers a quick positive bacteria kill. The high chlorine strength of this product makes it especially applicable for dairy, food and beverage processing equipment sanitizing where time and effectiveness are important factors.

AVAILABLE IN:

- 4 1/2 gallon case
- 4 1/2 gallon Klenz Pak

Manufactured by

PRODUCTS, Division of ECONOMICS LABORATORY, Inc.
OSBORN BUILDING, ST. PAUL, MINNESOTA 55102

STATEMENT OF INGREDIENTS:

where $\{q_n\}_{n=0}^\infty$ is a sequence of positive integers such that

Introduction

PROPERTIES:

Form	liquid clear	pH (1.0% solution)	10.0
Color	greenish yellow	2.5% solution	9.0
Odor	chlorine	Excess alkali	0.7%
Specific gravity	1.00	as sodium hydroxide	
Specific heat	1.26	Available chlorine	30% by weight
Packaging per gallon	1.0		

DILUTION FACTORS:

complicated, and the use of a single value for α is not appropriate.
