Subject: Label Amendment – Mineral Acids Registration Review Interim Decision
Risk Mitigation
Product Name: OASIS 299
EPA Registration Number: 1677-100
Received Date: 6/22/2018
Action Code Case Number: 00688280

Dear Elaine Money,

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the Mineral Acids Interim Decision, and has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling and must be used at your next label printing. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling.

"To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Stephen Savage via email at savage.stephen@epa.gov.

Sincerely,

Kimberly Whitesell
Senior Environmental Protection Specialist

Enclosure: Stamped Label

Oasis 299

HEAVY DUTY BATHROOM CLEANER/DISINFECTANT

ONE-STEP CLEANER • DISINFECTANT • SANITIZER • VIRUCIDAL* • FUNGICIDAL • DEODORIZER

Cleans Like Cleanser WITHOUT Scrubbing!

CLEANS AND DISINFECTS ENTIRE BATHROOM INCLUDING:

SHOWERS, SINKS, COUNTERS, FIXTURES, TUBS, FLOORS, WALLS, EXTERIOR SURFACES OF
TOILETS, TILE, CHROME, PORCELAIN, FIBERGLASS

For Institutional and Industrial Use

Active Ingredients:

Phosphoric Acid 17.4%

Citric Acid 4.9%

Inert Ingredients** 77.7%

Total 100.0%

Formula does not contain more than 5.6% Phosphorous

**Active as cleaning and buffering agents.

**KEEP OUT OF REACH OF CHILDREN
DANGER**

(See [back], [side], [inside], [other] for [complete] [additional] [directions for use] [precautionary statements])

[Note to Reviewer: In accordance with 40 CFR 156.68(d), all first aid statements, as prescribed, will appear on the front panel of the product label.]

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: CORROSIVE: Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist. **PERSONAL PROTECTIVE EQUIPMENT:** Handlers in industrial facilities using the spray and wipe application method must wear a NIOSH approved (TC-84A) full face respirator with a P100 filter. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 –20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

FOR EMERGENCY MEDICAL INFORMATION, CALL 1-800-328-0026

OUTSIDE NORTH AMERICA, CALL 1-651-222-5352

Have the product container label with you when calling a Poison Control Center or doctor or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS (only for 5 gallons or greater): Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

For Institutional and Industrial Use. Cleans, deodorizes and disinfects in one operation. Kills odor-causing bacteria, mildew and pathogenic fungi (*Trichophyton Mentagrophytes* (ATCC 9533), athlete's foot fungus) and *Staphylococcus aureus* (ATCC 6538). Disinfects Human Immunodeficiency Virus Type 1 (commonly known as the AIDS virus), Adenovirus Type 2 (ATCC VR-846), Herpes Simplex Type 1 (ATCC VR-733) and Influenza A2/Hong Kong (ATCC VR-544) on inanimate, hard non-porous surfaces only. Removes the toughest soap scum, dirt and even hard water deposits WITHOUT SCRUBBING. Use on non-porous surfaces such as bathroom chrome, fixtures, tile, sinks, shower doors and tubs, including porcelain and fiberglass. **Do not use on PVD finish surfaces.** Non-abrasive; won't scratch. Leaves surfaces shiny clean. *Oasis 299* has been found effective against Human Immunodeficiency Virus Type 1 (commonly known as the AIDS virus) on inanimate surfaces when tested according to the EPA Virucidal testing requirements.

*Effective against Human Immunodeficiency Virus Type 1 (commonly known as the AIDS virus), Adenovirus Type 2 (ATCC VR-846), Herpes Simplex Type 1 (ATCC VR-733), and Influenza A2/Hong Kong (ATCC VR-544).

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not mix with anything except water. Use (*Oasis*) spray bottle and foamer only for mixing and dispensing product.

For Daily Cleaning and Sanitizing: Add 4 oz. of *Oasis 299* to 16 oz. (*Oasis*) bottle and fill with water (1:4 dilution). Completely foam the surface to be cleaned. Allow 2 minute contact with surface, then wipe with damp sponge or cloth. Rinse surface promptly with water.

For Cleaning Heavy Build-Ups: Add 8 oz. *Oasis 299* to 16 oz. (*Oasis*) bottle and fill with water. Completely foam surface to be cleaned. Allow a few minutes for *Oasis 299* to work and wipe with damp sponge or cloth. Rinse promptly with water. (For excessively heavy build-ups, a second application may be necessary.)

For Disinfection/*Virucidal/Fungicidal/Deodorizer: Add 8 oz. *Oasis 299* to 16 oz. (*Oasis*) bottle and fill with water (1:2 dilution). First remove any heavy soil deposits, then completely foam the surface with *Oasis 299*. Allow 2 minutes contact with surface then wipe with damp cloth or sponge. Rinse promptly with water.

KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects are likely to be soiled with blood or body fluids that can be associated with the potential for the transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS)

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

Personal Protection: When handling items soiled with blood or body fluids, wear personal protection such as disposable latex gloves, gowns, masks, and eye coverings.

Cleaning Procedures: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of disinfectant.

Contact Time: 2 minutes

Disposal of Infectious Materials: Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

(For precise, automatic mixing, dispense through Control Tower Specialty Product Dispenser.)

Note: Do not use on natural marble, polished aluminum or special colored grout. May etch some older sinks and tubs. If in doubt, spot test hidden area first. Use only with foamer provided. Do not use any other sprayer.

This product is an effective disinfectant diluted at 1:2 (8 oz. product in 16 oz. bottle) in the presence of 5% blood serum and soap residue with a 2 minute contact time against the organisms listed below. Follow directions for disinfection. *Staphylococcus aureus* (ATCC 6538), *Salmonella enterica* (ATCC 10708), *Enterococcus faecalis* (Vancomycin resistant strain) (ATCC 51299), and *Trichophyton mentagrophytes* (ATCC 9533).

For service or additional information, call 1-800-35-CLEAN (352-5326)

Authorized by USDA for use in bathrooms associated with Federally inspected Meat and Poultry Plants.

STORAGE & DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL

PESTICIDE STORAGE: Store unmixed concentrate in a cool, dark, dry place in the original container. Always replace cover.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. Dilute 50:50 with water and neutralize with SODIUM BICARBONATE or SODIUM CARBONATE. Residue may be flushed to drain with plenty of water. If wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING AND DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Offer for recycling, if available, or discard in trash.

Optional marketing language:

- Respiratory illnesses attributable to Pandemic 2009 H1N1 are caused by influenza A virus.
- This product is a broad-spectrum hard surface disinfectant that has been shown to be effective against (influenza A virus tested and listed on the label) and is expected to inactivate all influenza A viruses including Pandemic 2009 H1N1 (formerly called swine flu).
- This product has demonstrated effectiveness against influenza A virus and is expected to inactivate all influenza A viruses including Pandemic 2009 H1N1 influenza A virus.
