# PYRETHRIN SPRAY

#### **ACTIVE INGREDIENTS:**

Pyrethrins	0.100%
*Piperonyl butoxide, technical	
N-octyl bicycloheptene dicarboxim	
INERT INGREDIENTS:	99.367%

\*Equivalent to 0.16% (butylcarbityl) (6-propylpiperonyl) ether and 0.04% related compounds.

# KEEP GUT OF REACH OF CHILDREN

CAUTION

See Side Panel For Additional Precautionary Statements.

EPA Reg. No. 1677-111 EPA Est. 3624-MQ-1

#### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FLEAS (INFESTING PREMISES): Remove and destroy animals' bedding and spray sleeping quarters freely, forcing the spray into all cracks in the floor and about the room. Repeat when re-infested. Do not remain in treated areas. Ventilate the area after treatment is completed.

ROACHES, WATERBUGS: Apply in all cracks and crevices in woodwork, underneath sinks, dark places behind pipes, and all places where roaches and waterbugs infest, contacting as many insects as possible. Repeat the operation as often as necessary. Do not remain in treated areas. Ventilate the area after a treatment is completed.

CLOTHES MOTHS, CARPET BEETLES: Spray all articles to be protected, giving particular attention to folds and seams. Interior surfaces of storage containers such as closets, chests, and trunks should be sprayed regularly. The treatment should be repeated every 30 days unless the articles are stored in moth-tight containers. Do not remain in treated areas. Ventilate the area after treatment is completed.

GRANARY WEEVIL, RICE WEEVIL, CONFUSED FLOUR BEE-TLE, GRAIN MITES (ACCESSIBLE STAGES): Wet surfaces thoroughly and treat all infested surface areas, insect runways and hiding places at the rate of 1 gallon of this material to 1,000 sq.ft. of area, or to the point of run-off. Repeat when necessary. Do not remain in treated areas. Ventilate the area after treatment is completed.

FOR FOGGING FLIES, GNATS, & MOSQUITOES: Close all doors and windows. Determine the number of cubic feet of space to be treated. Point nozzle upward and direct the aerosol mist to all parts of the area to be treated. Fog particularly well in areas in which insects are most likely to congregate or rest. Fog at the rate of 11/2 to 2 ounces per 1,000 cu. It. of space. Keep the treated area closed if possible for 15 minutes. After treatment, air out thoroughly and sweep up and remove dead insects. Do not remain in treated areas, Ventilate the area after freatment is completed.

### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store only in original container, in a dry place inaccessible to children and pets.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of onsite or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
