Non-Food Contact Surface Sanitizer and Conveyor
Lubricant/Detergent for Conveyors in the Dairy, Beverage and
Food Processing Industries.

Active Ingredients:

o-Phenylphenol.....1.5%
o-Benzyl-p-chlorophenol.....1.4%
Inert Ingredients.....97.1%

PRECAUTIONARY STATEMENTS:

Hazard to human and domestic animals.
KEEP OUT OF REACH OF CHILDREN

DANGER

CORROSIVE. Causes irreversible eye damage. Harmful if swallowed. Do not
get in eye or on clothing. Wear goggles or face shield. Wash thoroughly
with soap and water after handling. Remove contaminated clothing and
wash before reuse.

FIRST AID:

If in eyes: Hold eyelids open and flush with a steady gentle stream of
water for 15 minutes.

If swallowed: Drink promptly a large quantity of egg white, gelatin
solution or if these are not available, large quantities of water. Avoid
alcohol.

Note to physician: Probable mucosal damage may contraindicate the use of
gastric lavage.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Sani-Glide is specially formulated for environmental sanitation of conveyors in the dairy, beverage and food processing industries.

Sani-Glide contains a multiple phenolic system active as a sanitizer against gram positive and gram negative bacteria including the pathogenic organisms Listeria monocytogenes and Salmonella typhimurium on inanimate, non-food contact surfaces.

Sani-Glide provides exceptional lubricity and superior cleaning ability at high use dilutions. Sani-Glide keeps conveyors free of slime and soil buildups.

For best results spray-clean conveyors with a suitable detergent to remove soil and slime buildup. Spray-apply a 1% by volume (1 1/4 ounce to 1 gallon of water) dilution of Sani-Glide in water through standard conveyor lubricant spray nozzles using a conveyor lubricant dispensing system such as Klenzade's Lubri-Klenz 260, Super Klenz-Ject or Mikro-Master 300. Allow a minimum of 5 minutes contact time.

No need to rinse with potable water or remove product as Sani-Glide can be continuously applied to conveyors to prevent slime and soil buildup.

Sani-Glide is effective in water up to 150 ppm hardness as calcium carbonate (9 grains per gallon) at 1% by volume.

STORAGE AND DISPOSAL:

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

PESTICIDE DISPOSAL:

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional office for guidance.

CONTAINER DISPOSAL:

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by State and local authorities.

Net Contents: 55 U.S. gals (208.2 Liters)
