NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, in his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

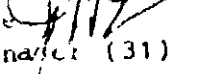

Comments and correspondence should be directed to the Registration Division, Office of Pesticides Programs, U.S. Environmental Protection Agency, Washington, DC 20460.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPLICANT (SEE INSTRUCTIONS)

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Net Contents: 12, 16, or 20 ozs. weight.

ACCEPTED
with COMMENTS
in EPA L. No. 1000

JAN 22 1991

Under the Fungicide, Insecticide, and Plant Growth Regulator Act as amended, this pesticide is registered under EPA Reg. No.

1677-131

KX-6034-A is a disinfectant, fungicide and mildewcide that provides the additional benefit of residual sanitizing upon exposure to water. When applied to clean, hard non-food contact surfaces, KX-6034-A forms a clear antimicrobial coating that sanitizes the coated surfaces when moistened with water. KX-6034-A's self sanitizing property make it an excellent product for use in hard to reach, difficult to sanitize, frequently moist areas.

KX-6034-A is recommended for use on non-food contact surfaces in areas including hospitals, nursing homes, other health-care facilities, schools, colleges, veterinary clinics, industrial facilities, food processing facilities and other food processing plants, dietary areas, office buildings, recreational facilities, retail and wholesale establishments.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DISINFECTION

Clean surfaces thoroughly prior to application. Rinse cleaned surfaces with water and allow to dry. Spray KX-6034-A on hard non-food contact surfaces such as walls, countertops, sinks, tile, bathroom fixtures, bed frames and general environmental surfaces with a smooth overlapping motion, assuring coverage of the surface. Allow coating to dry undisturbed for 30 minutes for maximum water resistance and abrasion resistance.

RESIDUAL SANITIZING

Moisten the coated surface by spraying or wiping with water. Allow the surface to remain moist for 5 minutes for residual sanitizing. Residual sanitizing activity of the coated surface lasts for at least five cycles. Coated surfaces may be cleaned and sanitized with dilute, neutral nonionic detergents. Treatment of coated surfaces with acid or alkaline cleaning products will remove the coatings. Reapply as required.

FUNGICIDE

KX-6034-A is an effective fungicide against Trichophyton mentagrophytes (athlete's foot fungus) when applied on surfaces in locker rooms, bathrooms, dressing rooms, bath and shower areas, pool and spa, and exercise rooms as directed above.

MOLD AND MILDEWCIDE

KX-6034-A kills mold and mildew when applied to hard surfaces such as bathroom fixtures, shower area, storage area, boat cushions and lawn furniture as directed above. Mold and mildew stains must be removed prior to application of KX-6034-A. Clean and reapply if growth reappears.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

STATEMENT OF PRACTICAL TREATMENT

SKIN: If prolonged skin contact occurs, wash area well with plenty of soap and water. Get medical attention if irritation persists.

EYES: Flush with plenty of water. Remove contact lenses and continue to flush with water for 15 minutes. Get medical attention.
