ASSUR-RING RED

Solid, Time-Released, Drain Detergent—Sanitizer—Deodorizer Ring For Use In The Dairy, Meat, Beverage and Food Processing Industries

ACTIVE INGREDIENT:

Alkyl (60% C₁₄, 30% C₁₆, 5% C₁₂, 5% C₁₈) dimethyl benzyl ammonium chlorides . . . 49.5%

INERT INGREDIENTS*: 50.5%

*FORMULA CONTAINS NO PHOSPHORUS

KEEP OUT OF REACH OF CHILDREN

DANGER

EPA Reg. No. 1677-134

EPA Est. 1677-IL-2 (J), 1677-NJ-1 (W), 1677-TX-1 (D), 1677-GA-1 (M), 1677-MN-1 (P), 1677-CA-1 (S), 1677-PR-1 (B), 6574-CA-1 (L)

The superscript refers to the first letter of the date code.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Corrosive. Causes irreversible eye damage and burns to skin. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles, face shield or safety glasses. Wear protective clothing and rubber gloves. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Remove contact lenses and continue flushing. Call a physician immediately.

IF ON SKIN: Wash with plenty of soap and water. Contact a physician if irritation persists.

IF SWALLOWED: ~~Drink promptly a large quantity of egg whites, gelatin solution, or if these are not available, large quantities of water. Avoid alcohol. Never give anything by mouth to an unconscious person.~~

CALL A POISON CONTROL CENTER OR PHYSICIAN IMMEDIATELY.

FOR EMERGENCY MEDICAL INFORMATION, CALL TOLL-FREE 1-800-328-0026.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
FOR INDUSTRIAL USE ONLY

Rinse mouth at once, then drink one or two glasses of water or milk. **DO NOT INDUCE VOMITING.** Never give anything by mouth to an unconscious person.

Manufactured by KLENZADE, Division of Ecolab Inc.

NET CONTENTS: 24.9 oz. (255 g) Solid Rings

STOPAGE AND DISPOSAL:
DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.
DO NOT STORE ON SIDE OR INVERTED POSITION.

PESTICIDE DISPOSAL:

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your state Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional office for guidance.

CONTAINER DISPOSAL:

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. ASSUR-RING RED is a water activated, time-released, solid detergent-sanitizer specifically formulated to improve environmental sanitation, control soil buildup and inhibit odors in floor drains, troughs and pits, overhead drip and collection pans, and, in drainage areas where wet conditions favor microorganism growth and cause sanitation concern. ASSUR-RING RED has been evaluated at 0.10 oz. to 3 gallons water (120 ppm quaternary) in the presence of 5% soil contamination (whole milk or blood-serum) and in waters up to 500 ppm hardness (29.2 gpg calculated as CaCO₃) by the Non-Food Contact Sanitizer Test and proven to be effective against a broad spectrum of gram negative and gram positive organisms found on environmental surfaces represented by

- | | | |
|-------------------------------|-------------------------------|-------------------------------|
| <i>Staphylococcus aureus</i> | <i>Escherichia coli</i> | <i>Listeria monocytogenes</i> |
| <i>Enterobacter aerogenes</i> | <i>Pseudomonas aeruginosa</i> | <i>Salmonella typhimurium</i> |

Treated surfaces must remain wet for 5 minutes.

ASSUR RING RED has been developed for use in drains and areas that receive occasional hot or continuous water flow. To use, clean and sanitize drains, troughs, drip pans, following normal plant environmental sanitation protocol. Grasp pull-tab found on upper edge of plastic container and tear away outside wall from ring exposing product and creating a convenient platform with handle. Position ring, to allow maximum contact with water flow. Remove only for periodic drain cleaning and sanitizing. To insure uninterrupted treatment, position new ring when approximately one quarter of old ring remains. Discard old platform and place remaining product onto new ring. For maximum ring exposure and direct surface contact, ring can easily be completely separated from its plastic platform after outside wall has been removed.
