

PP 1677-136

1 of 1

ACTIVE INGREDIENT:

Alkyl (60% C₁₄, 30% C₁₆, 5% C₁₂, 5% C₁₈)
dimethyl benzyl ammonium chlorides 37.8%

INERT INGREDIENTS*: 62.2%

*FORMULA CONTAINS NO PHOSPHORUS

**KEEP OUT OF REACH OF CHILDREN
DANGER**

EPA Reg. No. 1677-136

EPA Est. 1677-IL-2 (J), 1677-NJ-1 (W), 1677-TX-1 (D), 1677-GA-1 (M),

1677-MN-1 (P), 1677-CA-1 (S), 1677-PR-1 (B),

6574-GA-1 (L)

The superscript refers to the first letter of the date code.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and burns to skin Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles, face shield or safety glasses. Wear protective clothing and rubber gloves. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Remove contact lenses and continue flushing. Call a physician immediately.

IF ON SKIN: Wash with plenty of soap and water. Contact a physician if irritation persists

IF SWALLOWED: Drink promptly a large quantity of egg whites, plain solution, or if these are not available, large quantities of water and alcohol. Never give anything by mouth to an unconscious person. **CALL A POISON CONTROL CENTER OR PHYSICIAN IMMEDIATELY.**

FOR EMERGENCY MEDICAL INFORMATION, CALL TOLL-FREE 1-800-328-0026.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

FOR INDUSTRIAL USE ONLY

NET CONTENTS:

12/12 oz. (340 g) Solid
Rings

729582/5302/0790 Printed in U.S.A.

*insert under Precautionary
Statement where indicated*

① **IF SWALLOWED:** Rinse mouth at once; then drink one or two glasses of water or milk. **DO NOT INDUCE VOMITING.** Never give anything by mouth to an unconscious person.

STORAGE AND DISPOSAL:

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

DO NOT STORE ON SIDE OR INVERTED POSITION.

PESTICIDE DISPOSAL:

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your state Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional office for guidance.

CONTAINER DISPOSAL:

Triple rinse (or equivalent). Then allow for recycling or reconditioning, or dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

ASSUR-RING BLUE is a water activated, lime-released, solid detergent-sanitizer specifically formulated to improve environmental sanitation, control soil buildup and inhibit odors in floor drains, troughs and pits, overhead drip and collection pans, and, in drainage areas where wet conditions favor microorganism growth and cause sanitation concern

ASSUR-RING BLUE has been evaluated at 0.13 oz. to 3 gallons water (120 ppm quaternary) in the presence of 5% soil contamination (whole milk or blood-serum) and in waters up to 500 ppm hardness (29.2 gpg calculated as CaCO₃) by the Non-Food Contact Sanitizer Test and proven to be effective against a broad spectrum of gram negative and gram positive organisms found on environmental surfaces represented by:

- | | |
|-------------------------------|-------------------------------|
| <i>Staphylococcus aureus</i> | <i>Pseudomonas aeruginosa</i> |
| <i>Enterobacter aerogenes</i> | <i>Listeria monocytogenes</i> |
| <i>Escherichia coli</i> | <i>Salmonella typhimurium</i> |

Treated surfaces must remain wet for 5 minutes.

ASSUR-RING BLUE has been developed for use in drains and areas that receive cold or low water flow. To use, clean and sanitize drains, troughs, drip pans, following normal plant environmental sanitation protocol. Grasp pull-tab found on upper edge of plastic container and tear away outside wall from ring exposing product and creating a convenient platform with handle. Position ring to allow maximum contact with water flow. Remove only for periodic drain cleaning and sanitizing. To insure uninterrupted treatment, position new ring when approximately one-quarter of old ring remains. Discard old platform and place remaining product onto new ring. For maximum ring exposure and direct surface contact, ring can easily be completely separated from its plastic platform after outside wall has been removed.
