

IRRITATION. DO NOT GET IN EYES, ON SKIN OR ON CLOTHING. PROTECT EYES AND SKIN, WHEN HANDLING. MAY BE FATAL, IF SWALLOWED. AVOID CONTAMINATION OF FOOD. AVOID BREATHING DUST. AVOID INHALATION OF SPRAY OR FOGGING MIST.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Prior to use of this product, remove gross food particles and soil by a pre-flush, or pre-scrape and, when necessary, pre-soak treatment from all surfaces, then wash with detergent or other cleaning solution followed by a thorough potable water rinse.

Product Recommendation

Solutions of Bonchem Bon-A-Chlor 100 are recommended for sanitization of porous and non-porous food-contact surfaces on food processing equipment used in Meat and Poultry, Dairy and Dairy Farms, Beverage or other segments of Food Industry.

Use 1 ounce per 10 gallons of water (100 ppm available Chlorine) for sanitizing metal and glass surfaces. Use Hachet test kit to make certain concentration stays within limits. Allow 5 minutes contact time. Allow equipment to drain thoroughly before use.

Immersion or Flowing Methods: Use a solution of 1 ounce Bon-A-Chlor 100 per 10 gallons of water (100 ppm available Chlorine). Minimum contact time 2 minutes. Allow equipment to drain and air dry before use.

Bonchem Bon-A-Chlor 100 is recommended for the Chlorine sanitizing of farm and milk plant equipment and food processing plants.

The sanitizing solution may be used in C.I.P. or spray application to wet thoroughly all surfaces. Prepare fresh sanitizing solution at least once daily or more often, if the solution becomes diluted or soiled.
