LUBRI-KLENZ PLUS is specially formulated environmental sanitation of conveying system in the Brewery, Beverage, Dairy and Food Processing Industries.

LUBRI-KLENZ PLUS contains a quaternary ammonium compound active as a sanitizer against gram positive and gram negative bacteria including the pathogenic organisms *Listeria monocytogenes* and *Salmonella typhimurium* on inanimate non-food contact surfaces.

LUBRI-KLENZ PLUS is also effective against brewery spoilage organisms such as *Lactobacillus* and *Pediococcus*.

LUBRI-KLENZ PLUS provides exceptional lubricity, cleaning ability and foam control at recommended use concentrations. LUBRI-KLENZ keeps conveyors free of slime and soil buildup. **DIRECTION FOR USE:**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For best results remove gross soil by appropriate methods. Spray-clean conveyors with a suitable detergent to remove soil and slime buildups. Thoroughly rinse with potable water prior to application of product.

For Non-Food Contact Sanitizing spray-apply 0.25% by volume (1 ounce to 3.125 gallons of water, 1:400) dilution of LUBRI-KLENZ PLUS through an ECOLAB Inc. lubricant dispenser. Allow a minimum of 5 minutes contact. For heavy duty lubrication/cleaning needs spray apply up to a 1.50% by weight (1.9 ounce to 1.66 gallons of water, 1:66) dilution of LUBRI-KLENZ PLUS in water.

No need to rinse with potable water or remove product as LUBRI-KLENZ PLUS can be continuously applied to conveyors to inhibit slime and buildups.

**STORAGE AND DISPOSAL  
DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL**

**PESTICIDE DISPOSAL:**  
Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or empty container is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional office for guidance.

**CONTAINER DISPOSAL:**  
Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
