DIRECTIONS:

THIS DISINFECTANT IS TO BE USED IN JANITORIAL MAINTENANCE ON FLOORS, WALLS AND WOODWORK IN BOTH COMMERCIAL AND INDUSTRIAL AREAS. CAN ALSO BE USED IN HOMES, HOTELS, MOTELS AND SCHOOLS.

As an aid in ordinary disinfection against *S. Typhosa*, wash contaminated area with solution A. To aid in disinfection of URINALS and TOILETS - remove residual bowl water from toilet bowls, clean daily with solution A. Remove gross filth and heavy soils from surfaces prior to disinfection. Wash toilet seats, vessels and floors making sure entire surfaces are thoroughly wetted. Utilize solution by pouring down drains, in this way deodorizing traps and drains.

For GARBAGE CANS and RECEPTACLES: Wash all surfaces freely with solution A.

FOR CLEANING AND DEODORIZING WHERE
DISINFECTION IS NOT DESIRED.

GENERAL CLEANING - Prepare solution B and use regularly for mopping floors, washing woodwork, walls, sinks, refrigerators, and in basements.

DILUTION TABLE

Solution A - Mix 1 part Disinfectant with 128 parts water.

(1 ounce to 1 gallon of water)

Solution B - Mix 1 part Disinfectant with 200 parts water.

(2 ounces to 3 gallons of water)

CAUTION: Harmful if swallowed. If swallowed, drink promptly large quantities of milk, water, gruel or cornstarch oaste. Call a physician immediately. Avoid getting in eyes, or on skin. In case of eye contact, wash thoroughly with water. If eye irritation persists, get medical aid. Rinse empty container thoroughly with water and discard it. Avoid contamination of food.
