For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

Disinfection- to disinfect hard, non-porous surfaces, add 1 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. The activity of SECURITY 128 has been evaluated in the presence of 5% serum & 400 ppm hard water by the AOAC use dilution test & found to be effective against a broad spectrum of gram negative & gram positive organisms as represented by:
