AN EXCELLENT SPRAY FOR USE IN FOOD ESTABLISHMENTS, FOOD PACKING PLANTS, GRANARIES, FOOD STORAGE AREAS, HOSPITALS, SCHOOLS, HOTELS, RESTAURANTS AND INDUSTRIAL PLANTS.

THE State CHEMICAL MANUFACTURING CO.

MAIN OFFICES & PLANT CLEVELAND, OHIO 44114

FOR FLYING INSECTS - Flies, Houseflies, Flying Moths, Gnats, Wasps, etc. Spray liberally with Microcide in the areas where the insects are most abundant. In food establishments, doors and windows may be sprayed with Microcide to prevent the entrance of insects.

FOR CRAWLING INSECTS - Roaches, Waterbugs, Silverfish, Granary Weevil, Meal Worms and Grain Mites. Spray Microcide directly into cracks and crevices, in bins, etc. where the insects are most abundant. Spray directly on the insects. Apply a treatment of 1 gallon per 1000 square feet of surface.

TO KILL CLOTHES MOTHS AND CARPET BEETLES. The Microcide can be used to kill clothes moths and carpet beetles. Cracks, crevices and openings in walls, floors and furniture, when wetted with spray, will kill the insects. Microcide is a breeding material for the insects. It is highly effective to be used in the areas where the insects are most abundant. Spray liberally with Microcide in the areas where the insects are most abundant.

OUTDOOR USE: Microcide can be used outdoors to kill mosquitoes, flies, gnats, etc. Spray liberally in the areas where the insects are most abundant. Spray frequently in areas where the insects are most abundant. Spray as well as the spray.

CAUTION:

Harmful if swallowed. Keep out of the reach of children. Do not use directly to feed or feed stuffs. Remove birds and animals from spraying area. All pet containers and processing equipment, after spraying, should be cleaned as thoroughly as possible and excess quantities of food and dirt removed before applying the Microcide. The Microcide should be sprayed in food processing areas when part of the equipment should be removed or covered for treatment. All food processing surfaces should be covered and cleaned after using.

The use of Microcide should be made in accordance with the instructions on the label.
