UNITED STATES ENVIRONMENTAL PROTECTION AGENCY WASHINGTON, D.C. 20460

OFFICE OF PREVENTION, PESTICIDES AND TOXIC SUBSTANCES

State Chemical manufacturing, Company 3100 Hamilton Avenue Cleveland, Ohio 44114

Attention: Annie L. Doersching

Subject: Stapine

)

EPA Registration Number 1685-13

Your Amendment Dated December 9, 1998 EPA Received Date December 15, 1998

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, to update and revise the product labeling, is acceptable provided that you make the following revisions:

- 1. Specify the time expressed in terms of minutes needed to clean the toilet room, urinals, and water closets section.
- 2. Revise the statement, "leaving the emulsion in the bowl as long as possible" to read as follow: "leaving the emulsion X minutes in the bowl." A time limit expressed in minutes must be included in this subsection.
- 3. Delete the term, "stable", from the product labeling.
- 4. Delete the term, " of all kinds", from the product labeling. considered misleading and does not specify the type of building.
- 5. Delete the term, "high-grade", from the product labeling.

6. Under the "To Disinfect and Deodorize Garbage Cans" section, revise the statement "Leave dilution in the can" to read "Leave dilution in the can for ten minutes". A time limit expressed in minutes must be included in this subsection.

A stamped copy of the labeling is enclosed for your records.

If you have any questions concerning this letter, please contact Karen M. Leavy-Munk at (703)-308-6237.

Sincerely yours,

Product Manager 33

Regulatory Management Branch I Antimicrobial Division (7510W)

DIRECTIONS FOR USE it a volation of Federal Live to use this product in a manner incorrestent with its labeling.

STAPRE at described for chairing and chimistring in schools, offices, apartment biskings, moses, holest and inclusing talknooms, locker norms and carbonal and inclusing talknooms, locker norms and carbonal

ELOOMS: Franciscon and scripturatives benchmortens of STAPING in a cython of water. Linear the distant STAPING development or contact with the treated sur-like 5 to 10 messing.
