FORMULA 241

- Deodorant • Disinfectant
- Air Sanitizer • Pleasant • Fresh

DISINFECTION

Remove cap and press button holding container 7-9 inches from the contaminated surface. Only a 3 second burst is necessary to wet the surface and disinfect. DEO has been tested by the official A.O.A.C. germicidal spray method. Apply DEO directly to walls, desks, lockers or other hard surfaces. When used as a hard surface disinfectant, this product is effective against many disease carrying organisms including "Staph".

AIR SANITIZATION plus DEODORIZATION

Special combination of ingredients in DEO guaranteed to reduce most airborne bacteria and viruses. This action sanitizes the air, reducing the hazard of airborne infection. To start beneficial action, hold dispenser in an upright position. Point valve opening away from the face and spray in 5 second bursts for maximum benefits.

The active principle in DEO actually reacts with odor molecules, changing its chemical configuration.

Any odor problem calls for the use of DEO. Effective in clinics, nursing homes, hospitals, wash rooms, hotels, motels, mortuaries, kitchens, public terminals, and industrial plants.

Bowling shoes are sanitized by spraying lightly each time they are used.

For deodorization of wound dressings, spray lightly on outside of pad. Do not apply treated side directly to wound.

ACTIVE INGREDIENTS

n-Alkyl (98% C ₁₂ , 2% C ₁₁) dimethyl	
1-naphthymethyl ammonium chloride monohydrate	0.5%
Isopropanol	10.8%
Triethylene glycol	8.0%
Propylene glycol	0.5%
Beta terpineol	0.2%
	20.0%

INERT INGREDIENTS

Trichloromonofluoromethane	40.0%
Dichlorodifluoromethane	40.0%
	80.0%
	100.0%

New triple action DEO Formula 241 will disinfect hard surfaces, reduce air borne bacteria and viruses — and simultaneously deodorize!
