

1685-24, PM-31, 1/2

DEC 09 1986

The State Chemical Manufacturing Company  
3100 Hamilton Avenue  
Cleveland, OH 44114

Attention: T. Westerman

Gentlemen:

Subject: State MNT  
EPA Registration No. 1685-24  
Your Amendment Application Dated October 6, 1986

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
  - The air sanitizer claim requires that triethylene glycol and propylene glycol remain in the active ingredients. Deletion of these two actives is not acceptable. Isopropanol and essential oils may be deleted.
2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

John H. Lee  
Product Manager (31)  
Disinfectants Branch  
Registration Division (TS-767C)

ACCEPTED  
with COMMENTS  
in EPA Letter Dated:

DEC 09 1986

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.  
1688-24

FOR INDUSTRIAL USE ONLY

Deodorant • Disinfectant  
Air Sanitizer • Pleasant • Fresh

**DISINFECTION**

Remove cap and press button holding container 7-9 inches from the contaminated surface. Only a 3 second burst is necessary to wet the surface and disinfect.

To kill Herpes simplex Type 2 on hard, nonporous, inanimate environmental surfaces hold can 7 to 9 inches from surface to be sprayed. Spray long enough to thoroughly wet the surface. Allow to remain wet for 10 minutes. Wipe off with a clean mop, cloth or sponge. For heavily soiled areas, remove gross soil by pre-cleaning before apply MNT.

MNT has been tested by the official AOAC germicidal spray method. Apply MNT directly to walls, desks, lockers, or other hard surfaces. When used as a hard surface disinfectant, this product is effective against many disease carrying organisms including "Staph."

State MNT is also virucidal against Herpes Simplex Type 2 when used as directed on hard, nonporous, inanimate environmental surfaces.

**SANITIZATION plus DEODORIZATION**

Special combination of ingredients in MNT guaranteed to reduce most airborne bacteria and viruses. This action sanitizes the air, reducing the hazard of airborne infection. To start beneficial action, hold dispenser in an upright position. Point valve opening away from the face and spray in 5 second bursts for maximum benefits.

The active principle in MNT actually reacts with odor molecules, changing its chemical configuration.

Any odor problem calls for the use of MNT. Effective in clinics, nursing homes, hospitals, wash rooms, hotels, motels, mortuaries, kitchens, public terminals, and industrial plants.

Bowling shoes are sanitized by spraying lightly each time they are used.

For deodorization of wound dressings, spray lightly on outside of pad. Do not apply treated side directly to wound.

New triple action MNT will disinfect hard surfaces, reduce airborne bacteria and viruses — and simultaneously deodorize!

**STORAGE & DISPOSAL**

Store this product in a locked storage area out of the reach of children. Store at temperatures below 120°F. Store away from heat, sparks, open flame and direct sunlight. Keep from freezing.

**DISPOSAL:** Replace cap and discard containers in trash. Do not incinerate or puncture.

**PRECAUTIONARY STATEMENTS**

**Hazards to Humans**  
**WARNING**

Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F. may cause bursting. Avoid contaminations of food. Avoid contact with skin and eyes. In case of contact, wash thoroughly with water. If irritation persists, get medical attention. Do not spray directly on plastic or varnish surfaces.

**ONLY FOR SALE TO,  
USE, AND STORAGE  
BY SALESPERSONS.**

- Deodorant
- Disinfectant
- Air Sanitizer
- Pleasant • Fresh

**ACTIVE INGREDIENTS:**

n-Alkyl (98% C <sub>12</sub> , 2% C <sub>14</sub> ) dimethyl	
1-naphthylmethyl ammonium	
chlorides monohydrate.....	0.5%
Triethylene glycol.....	8.0%
Propylene glycol.....	0.5%
<b>INERT INGREDIENTS.....</b>	<b>91.0%</b>
	100.0%

**FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY  
NOT FOR HOUSEHOLD USE OR RESALE**

**KEEP OUT OF REACH OF CHILDREN  
WARNING**

SEE SIDE PANEL FOR ADDITIONAL  
PRECAUTIONARY STATEMENTS
