## FOGGING CONCENTRATE

### FOR USE IN FOGGING AND MISTING EQUIPMENT

#### KILLS FLIES, GNATS and MOSQUITOES

**ACTIVE INGREDIENTS:**

Beta-butoxy Beta'-thiocyano Diethyl Ether	9.32%
*Malathion	21.03%
Petroleum Distillate	69.65%
<b>TOTAL ACTIVE INGREDIENTS</b>	<b>100.00%</b>

\*O,O-dimethyl dithiophosphate of diethyl mercaptosuccinate.

**CAUTION: Keep Out Of The Reach of Children**

**COMBUSTIBLE MIXTURE:** Do not spray into or near open flame. Do not smoke while spraying.

Repeated or prolonged contact with skin can cause toxic symptoms. Avoid inhalation or skin contact. In case of spillage on skin, wash with soap and water. Harmful if swallowed. Avoid fogging too close to dwellings, parked cars or other vehicles where oily residues would be undesirable.

Do not contaminate drinking water. **DO NOT USE IN DAIRY BARNs OR ON LIVESTOCK INTENDED FOR SLAUGHTER OR IN POULTRY HOUSES.** Do not reuse empty container. Destroy container when empty.

This product is toxic to fish. Keep out of lakes, ponds and streams or any other fish bearing waters.

**DIRECTIONS:**

Do not apply to any food, feed, or forage crops. It should be applied as a fog or fine mist to completely envelope the area to be treated in accordance with type of applicator employed and the manufacturer's recommendation. This concentrate should be diluted at the rate of one (1) gallon to six (6) gallons of fuel oil.

**MOSQUITOES AND GNATS** — Envelop total area to be treated with a fine mist or a coarse fog. Pay particular attention to all zones of stagnation.

**FLIES** — Envelop in a fine fog or mist. Use fog in repelling flies for many critical areas such as stables, barns, and rubbish piles.
