June 12, 1971
 UNDER THE FEDERAL INSECTICIDE
 FUNGICIDE AND RODENTICIDE ACT
 FOR ECONOMIC POISON REGISTER-
 ED UNDER NO. 1685-45
 TO ATTACHED COMMENTS.

FORMULA 215 **SURE-KIL** SELECTIVE WEED KILLER

- For Selective Weed Control of certain broad-leaved annual and perennial weeds
- Sequestering Agents make SURE-KIL soluble in hard and soft water
- Use SURE-KIL in low gal. usage (5-20 gal. 1 acre) and high volume equipment
- Costly Wetting Agents provide thorough leaf coverage and deep down penetration

Contains 2 lbs. of 2,4-D Acid equivalent per gallon, or 22.2%

DIRECTIONS

FOR TREATING SMALL AREAS: Two tablespoonfuls in 1 1/2 gallons of water is about equal to half a gallon in 100 gallons.

SPOT TREATMENT: For knapsack application of SURE-KIL for spot treatment of such weeds as thistles, mix 1 cup of SURE-KIL in 3 gallons of water. Wet all foliage thoroughly.

TURF WEED CONTROL: For lawns, pastures and other turf areas, use 2 to 3 quarts of SURE-KIL per acre. Apply when foliage is growing rapidly in late spring or early summer.

WARNING: Do not use on lawns of creeping grasses, such as bent, St. Augustine, on carpetgrass or Dichondra, except for spot spraying, nor on seeded turf until grass has become well established. Most legumes are usually damaged or killed.

GENERAL WEED CONTROL: In vacant lots, on roadsides and along fence rows, use enough spray to wet all foliage. 1 gallon of SURE-KIL in 100 gallons of water will control most young weeds; however 1 1/2 gals. may be necessary for more resistant weeds. Deep-rooted perennial weeds, such as bindweed and Canada thistle may require repeated applications as new growth appears. Application should be made when plants are growing actively in late spring or early summer, and foliage is fully expanded.

WARNING

**MAY CAUSE SKIN IRRITATION
 KEEP OUT OF REACH OF CHILDREN**

Do not get in eyes. Avoid contact with skin and clothing. In case of contact flush eyes with plenty of water for at least 15 minutes and get medical attention. Wash skin with plenty of soap and water.

HARMFUL IF SWALLOWED

Do not store near seeds, food, fertilizer, insecticides or fungicides. Do not contaminate water.

Do not graze treated areas by dairy animals within 7 days after treatment.

ACTIVE INGREDIENT

Dimethylamine salt of
 2,4-Dichlorophenoxyacetic acid 26.75%

INERT INGREDIENTS 73.25%

100.00%

Equivalent to 22.2% 2,4-D acid
 or 2.0 pounds per gallon.

See Right Side Panel for additional cautions.

Extreme care must be used when applying. Do not contaminate water used for irrigation or domestic purposes. Do not allow spray mist to drift onto such plants, since even minute quantities of spray may cause severe injury. Use low pressures when spraying to produce coarse sprays which are less likely to drift. Do not spray on windy days.

Thoroughly clean spray equipment with a suitable chemical cleaner before using for other purposes.

Do not re-use container. Destroy by burying in a safe place. Do not burn.

WARNING NOTICE

State warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the directions for use. This product is sold subject to the understanding that the buyer assumes all risks of use or handling which may result in loss or damage which are beyond the control of the seller, such as for example incompatibility with other products, the manner of its use or application, or the presence of other products or materials in or on the soil or crop. State makes no other express or implied warranty of fitness or merchantability. The exclusive remedy of the user or buyer, and the limit of the liability of State Chemical or any other seller, for any and all losses, injuries or damages resulting from the use or handling of this product shall be the purchase price paid by the user or buyer for the quantity of this product involved. The buyer and all users are deemed to have accepted the terms of this notice, which may not be varied by any verbal or written agreement.
