

797-A

STATE POWDERED INSECTICIDE

A highly effective insecticide combining the flushing and killing powers of pyrethrins and piperonyl butoxide with the dehydrative principle of thermally etched hydrazol that destroys roaches, ants, silverfish, bedbugs and fleas. 797-A is relatively odorless and nonstaining and may be used according to directions in restaurants, stores, hotels, offices, plants, warehouses, truck trailers, sewage treatment plants and other industrial and institutional places.

ACTIVE INGREDIENTS

Pyrethrins	1.00%
Piperonyl Butoxide, Technical	10.00%
Amorphous silica gel	40.00%
Petroleum Distillate	48.00%
TOTAL	100.00%

(Equivalent to 8.0% (butylcarbamyl) (6-propylpiperonyl) ether and 2.0% related compounds)

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid inhalation. Avoid contact with eyes. In case of eye contact, immediately flush eyes with plenty of water. Get medical attention if irritation persists. Avoid contamination of food or food processing surfaces. Do not use in commercial food preparation areas, or in edible food product areas of food processing plants. Keep all equine areas covered during treatments.

STATEMENT OF PRACTICAL TREATMENT: If swallowed, do not induce vomiting because of asphyxiation hazard. Get immediate attention.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of waste. Apply this product only as specified on the label.

NET WEIGHT 3 OZ.

FOR INDUSTRIAL USE ONLY

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Store in a dry place. Avoid getting moisture in containers. Store this product only in its original container and place in locked storage areas out of the reach of children.

DISPOSAL: Do not reuse empty bottle. Wrap container in newspaper and put in trash.

To control German, Brown Banded, Oriental and American roaches, ants and silverfish. Apply the powder lightly, but thoroughly, at the rate of two ounces per 100 square feet of surface. Application should be made to cracks, crevices, around water pipes or other openings where insects move or hide, particularly sink and cabinet areas, service areas, bathrooms, places where insects enter premises, such as door sills, or other openings. Repeat treatment as needed.

FOR ROACH CONTROL IN SEWERS: Remove manhole cover and replace with a disc of plywood board to receive the flexible hose from the truck-mounted ventilating equipment. Pour approximately 5 ounces (1/3 of a pound) of State 797-A into ventilator-blower attached to manhole of infested sewer line. Clouds of 797-A will then spread over hundreds of feet of roach infested sewer lines. When treating sewers, one manhole per 200 feet of line should be treated. Continue application through the next two manholes beyond visible evidence of roach infestation. This treatment is highly effective for the control of American and Oriental roach infestations.

BEDBUG CONTROL: Dust 797-A into all joints, channels and hollows of bed. Also mattresses and adjoining furniture as well as all cracks and crevices in the room should be treated.

FLEA CONTROL ON DOGS AND CATS: Liberally apply and rub 797-A on skin of the animal. Dust kennel surfaces with 2 oz. per 100 square feet.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT, ARE NOT PERMITTED.
