

ACTIVE INGREDIENTS:

Technical Chlordane-----45.00%
Petroleum Distillate-----51.20%

INERT INGREDIENTS-----3.80%

TOTAL-----100.00%

*Dye valent to 27.00% DDT-chloro-4, 7-
metharotetrahydroindane and 15.00%
related compounds.

EPA Reg. No. 1685-571

CAUTION

KEEP OUT OF REACH OF CHILDREN

See side panel for Antidote and other Precautionary Statements.

DIRECTIONS:

For Golf Courses, Parks, Turf and Cemeteries:

For the control of ants, armyworms, chiggers, crickets, earwigs, grasshoppers, leaf beetles, mole crickets, spiders and ticks, add 2-3 tablespoons of EC-45 in 2 gallons of water to spray the turf per 1000 square feet. Repeat application when necessary.

For the control of Asiatic garden beetle larvae, European chafer larvae, Japanese beetle larvae, whitefringed beetle larvae, white grubs and wireworms, add 5-10 tablespoons of EC-45 to 2 gallons of water to treat or spray the turf per 1000 square feet.

Indoor Use: To control roaches, ants and centipedes, mix 5-7 fluid ounces of EC-45 with a gallon of water and spray infested floor area as required. Repeat application as necessary.

For control of powder-post beetles, mix 5-7 ounces of EC-45 with a gallon of kerosene or water and spray or brush the surfaces of the infested wood.

TERMITES CONTROL:

Mix 3 fluid ounces of EC-45 with every one gallon of water and apply this 1% Chlordane emulsion as follows:

Outside Applications: In cases where trenching is required, dig one to two feet beneath the soil surface along the foundation to that depth, but not below the footing. Apply 1 gallon of the undiluted EC-45 per linear foot for trenches over 15 inches deep, and 1/2 gallon of the diluted EC-45 per linear foot for trenches up to 15 inches deep. Spray part of the emulsion in the bottom of the trench and mix the balance proportionately with the soil as it is replaced in the trench. For buildings with deeper foundations, dig trench 33 inches deep. Do not dig trench below level of footing.

Under Term Barriers: Along side of foundation, where soil surface is exposed, dig 1" wide trench adjacent to the inner foundation wall and treat 1/2 gallon of diluted EC-45 per linear foot. Follow the above given directions for the treatment. Where the soil surface is not exposed, it is recommended to remove covering or drill through it and treat with 1% Chlordane water-emulsion. For the treatment of entire covered soil areas use one gallon of 1% Chlordane emulsion per 10 square feet of area to be treated.

Concrete Slab Construction: Apply 1 gallon of 1% chlordane emulsion per 10 square feet as an over-slab treatment under the slab. Apply 1 gallon of diluted EC-45 per linear foot to critical areas under the slab, such as along the inside of foundation walls and around service entrances.

Formal 203

EC-45

INSECTICIDE

Concentrated -- High Residual Action for Insect Control
Water Insoluble--Oil Soluble

FOR PROFESSIONAL TERM USE ONLY

CAUTION--

Harmful if swallowed. Contact with skin can cause severe burns. Avoid breathing spray mist. In case of contact with skin, wash with soap and water. Avoid contamination of food and feedstuffs. Keep Out of the Reach of Children. Do not use, pour, spill or store near heat or open flame. Keep children or pets off treated turf until material has been worked into the soil by watering or rain and grass is dry.

Toxic to fish and wildlife. Avoid feeding on treated areas. Do not use in any body of water. Do not use in any manner not specified on this label.

CONTAINER DISPOSAL:

Wash equipment and use flares and dispose of wastes by burning in approved incinerator. Water disposal. Containers should be disposed of by burning, holes in them and burning with them or by burning. Keep out of smoke.

ANTIDOTES

EXTERNAL: In case of spillage on skin, wash promptly with soap and water.

INTERNAL: Administer 1 tablet of activated charcoal in tumbler of water. Call a physician.

NOTES: Read the entire label of this product. Do not use in violation of the label. The State Chemical Mfg. Co. makes no representation or warranty, either express or implied, for results of use greater than any tolerance which may be established by appropriate governmental agencies, due to human error, or for any other cause of this material. Nor does the State Chemical Mfg. Co. assume any responsibility for injury to persons, property, animals, or property arising out of misuse, improper handling, or use of this material.
