

STATEBRAND
FORMULA 267

PARCH

NON-SELECTIVE HERBICIDE

- DOUBLE ACTION — Works through foliage contact and root absorption.
- LONG TERM CONTROL
- WATER EMULSIFIABLE

ACTIVE INGREDIENTS:

2,4-bis (isopropylamino) 6-methoxy-s-triazine*	3.12%
Pentachlorophenol	1.12%
Other Chlorinated Phenols	0.13%
Xylene	82.59%
INERT INGREDIENTS:	13.04%
	<hr/> 100.00%

*Pronto is a registered trademark CIBA Geigy Corp.

WARNING:

KEEP OUT OF THE REACH OF CHILDREN
SEE SIDE PANEL FOR ADDITIONAL CAUTIONS

DIRECTIONS FOR USE:

Parch is a non-selective herbicide that can be applied for post-emergence or pre-emergence weed control. Parch is a specially designed formulation for complete vegetation control by actions through foliage contact and root absorption. It is recommended that Parch be used in the areas such as industrial sites, around buildings, highways, right-of-ways, lumber yards, tank farms, remoter, driveways, parking lots, fence areas, recreational areas and airports. Parch is water emulsifiable and non-corrosive to equipment.

DILUTION RECOMMENDATIONS FOR WEED AND GRASS CONTROL:

SPOT TREATMENT For control of annual and susceptible perennial weeds (such as downy brome grass, oatgrass, goosegrass, quackgrass, puncturevine, goldenrod and plantain) thoroughly mix 2-3 pints of Parch in 3 gallons of water and spray up to 250 square feet to give thorough and uniform coverage.

LARGE AREA TREATMENT: Application rates for large areas depend on climatic conditions, soil type, the weeds present and stage of growth of the weeds. Mix one gallon Parch with 10 gallons water to cover 650 to 1000 square feet. The recommended dosages are equivalent to 43 to 65 gallons of Parch concentrate per acre.

The higher rate of application should be used where longer residual control is desired in regions with a long growing season or for control of hard-to-kill perennial weeds and grasses such as Johnson Grass, bindweed and

wild carrot. During seasons with excessive rainfall causing heavy weed growth, repeat treatment may be required.

For faster top-kill of existing vegetation, appl. Parch at the above dilution rates in diesel oil, fuel oil or weed oil.

Parch should not be used on land to be cropped, or near desirable trees, shrubs or plants, as injury may occur. Do not apply to areas underlaid by roots of desirable trees and shrubs.

WARNING:

KEEP OUT OF THE REACH OF CHILDREN

Harmful if swallowed. Avoid contact with eyes and skin. In case of skin contact, wash with soap and water. Avoid inhalation of spray mist. Avoid contamination of food and feed.

"Do not use, pour, spill or store near heat or open flame."

Store at temperatures above 32 degrees F.

PRECAUTIONARY STATEMENT:

Do not contaminate water used for irrigation or domestic purposes.

Do not store near fertilizers, seeds, insecticides or fungicides. Thoroughly clean equipment with a suitable cleaner before using for other purposes.

FISH AND WILDLIFE CAUTION:

This product is toxic to fish and wildlife. Birds and other wildlife in treated areas may be killed. Keep out of lakes, streams, or ponds. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes.

Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place.

WARRANTY NOTICE: State Chemical Manufacturing Co. warrants that the chemical description on the label and the directions for the purposes referred to on the directions label are true and correct. It does not warrant that the user will obtain the results shown on the label or that the use of this product will not result in loss or damage to crops, livestock, or other property. The user assumes the responsibility for the use or application of the product, or material, in or on the soil or crop. State Chemical Manufacturing Co. makes no warranty of fitness or merchantability. The user assumes the responsibility of the user or buyer, and the limit of the liability of losses, injuries, or damages resulting from the use or handling of this product shall be the purchase price paid by the user or buyer for the quantity of this product involved. The buyer and all users are deemed to have accepted the terms of this notice, which may not be varied by any verbal or written agreement.
