DIRECTIONS FOR USE

It must be diluted with either hot or cold water before using.

Meat, Bakery, Delicatessen and Fish and Chips equipment or utensils: First remove or protect food products and packaging materials. Dilute four ounces of FFC Terg-O-San Cleaner-Sanitizer per gallon of water for sanitizing action against Staphylococcus aureus and Escherichia coli. Wash equipment with the diluted solution utilizing brush. Follow with a rinse of clear (Potable) water. For heavy grease conditions use stronger solution and hot water for better degreasing action.

Floors, tables, walls and other hard surface cleaning and sanitizing: Dilute four ounces of FFC Terg-O-San Cleaner-Sanitizer per gallon of water and apply with mop or cloth.

Rinse food contact surfaces with terminal potable water before reuse.

FFC Terg-O-San Cleaner-Sanitizer is effective in water up to 400 ppm hardness calculated as CaCO₃.
