

STATE FORMULA 296

STATE ROACH AND ANT KILLER

contains Baygon*

For Residual Surface Treatment

DIRECTIONS

METHODS OF APPLICATION

1. State Roach and Ant Killer is a highly effective ready to use formulation and should be applied with low-pressure sprayer with coarse spray nozzle, or:
2. Apply State Roach and Ant Killer with a brush, which is very satisfactory, or:
3. Use an oiling can which will also serve for applying this insecticide.

FOR THE CONTROL OF ROACHES AND WATERBUGS:

Apply State Roach and Ant Killer wherever these insects and their runways are suspected. Thoroughly treat baseboards, cracks and crevices, around window and door frames, around garbage and waste containers, around floor drains, sinks and other places where these insects may harbor.

FOR THE CONTROL OF ANTS: Apply State Roach and Ant Killer to trails and places where ants enter premises, around window and door frames. Spray hills and runways outdoors.

FOR THE CONTROL OF SPIDERS: (also clover mites, crickets, earwigs, millipedes, centipedes, sow-bugs and scorpions).

Apply State Roach and Ant Killer as a wet spray along infested baseboards and corners. Thoroughly spray interior and exterior perimeter of the infested premises

FOR CONTROL OF MOSQUITOES: (also fleas, flies and gnats)

OUTDOOR USE ONLY – Spray infested areas thoroughly – outside surfaces of screens, doors, window frames, foundations and other areas where insects may enter.

APPLICATIONS WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS

Limited to Crack and Crevice Treatment only – apply a small amount of State Roach and Ant Killer directly onto cracks and crevices expansion joints between different

elements of construction or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduits or hollow equipment legs where roaches, ants, sowbugs, silverfish, millipedes, clovermites, and spiders hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. A proper spray equipment must be used to deliver pencil-thin stream for applications. Avoid contamination of food or food processing surfaces.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT, ARE NOT PERMITTED.

PROVIDES

- Wide Range Insect Control
- Effective Flushing Action
- Fast Knock-Down
- Long Residual Control

ACTIVE INGREDIENTS

o-Isopropoxyphenyl methylcarbamate**	1.00%
Petroleum Distillate	84.00%

INERT INGREDIENTS

	85.00%
	15.00%
	100.00%

U.S. Patent No. 3,111,539

CAUTION:

KEEP OUT OF REACH OF CHILDREN

(See side panel for additional cautions)

For Industrial and Institutional Use Only

CAUTION

Do not use as a space spray. Provide adequate ventilation of areas being treated. May be harmful if swallowed, inhaled or absorbed through skin. Do not get on eyes, skin or on clothing. Wash after handling. Avoid breathing of Spray Mist.

Do not apply to animals. Remove pets and cover fish bowls before spraying. Do not spray plants.

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME

Keep children and pets off the treated areas until surfaces are thoroughly dry.

Toxic to fish and wildlife. Keep out of lakes, ponds and streams. Do not apply where runoff is likely to occur. Do not apply where weather conditions favor drifts from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes.

Do not reuse empty container. Destroy by perforating or crushing and burying in a safe place.

ANTIDOTE

EXTERNAL: In case of spillage on skin, wash promptly with soap and water.

INTERNAL: Call a Physician immediately. Atropine sulfate is antidoted.
