DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

METHODS OF APPLICATION

1. STATE ROACH AND ANT KILLER is a highly effective ready to use formulation and should be applied with low-pressure sprayer with aerosol spray nozzle. Do not apply this product using a trigger-type or finger operated sprayer.
2. Spray cracks, crevices, along baseboards, door and windowsills as well as inaccessible areas behind stoves, refrigerators, around garbage cans and utility installations. DO NOT spray open floor areas, carpets, furniture, beds or bedding.
3. STATE ROACH AND ANT KILLER has a residual effect of approximately 4 to 6 weeks when applied indoors. Repeat application as necessary.

FOR THE CONTROL OF ROACHES AND WATERBUGS: Apply STATE ROACH AND ANT KILLER wherever these insects and their runways are suspected. Thoroughly treat baseboards, cracks and crevices, around window and door frames, around garbage and waste containers, around floor drains, sinks and other places where these insects may harbor.

FOR THE CONTROL OF ANTS: Apply STATE ROACH AND ANT KILLER to trails and places where ants enter premises, around window and door frames. Spray hills and runways outdoors.

FOR CONTROL OF MOSQUITOES: (also fleas, bees and gnats).

OUTDOOR USE ONLY — Spray infested areas thoroughly — outside surfaces of screens, doors, window frames, foundations and other areas where insects may enter.

APPLICATION WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS

Limited to Crack and Crevice Treatment only — apply a small amount of STATE ROACH AND ANT KILLER directly into cracks and crevices, expansion joints between different elements of construction or between equipment bases and the floor, wall vents, water faucets, junction boxes or switch boxes, conduits or hollow equipment legs where roaches, ants, scabbugs, silverfish, millipedes, clovermites and spiders hide. Prior to application de-energize electrical equipment. After application allow time for product to evaporate before starting motors or plugging switches in the "ON" position. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Proper spray equipment must be used to deliver punch-the-groom for applications. Avoid contamination of food or food processing surfaces.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT, ARE NOT PERMITTED.

**FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY
NOT FOR HOUSEHOLD USE OR RESALE**

State Formula 295

ROACH AND ANT KILLER

• For Residual Surface Treatment

PROVIDES:

- Wide Range Insect Control
- Effective Flushing Action
- Fast Knock-Down
- Long Residual Control

ACTIVE INGREDIENTS

2-(1-methyl-2-hydroxy) phenol methylcarbamate*	1.00%
INERT INGREDIENTS	99.00%
† Contains petroleum distillate.	100.00%
* U.S. Patent No. 3,111,538	

CAUTION

KEEP OUT OF REACH OF CHILDREN

(See side panel for additional cautions.)
