

**FORMULA 398-A PARCH  
NON-SELECTIVE HERBICIDE**

• **DOUBLE ACTION** — Works through foliage contact and root absorption • **LONG TERM CONTROL** • **WATER EMULSIFIABLE**

**ACTIVE INGREDIENTS**

Prometon: 2, 4-bis (isopropylamino)-6-methoxy-s-triazine\* 2.5%  
Petroleum Distillate 97.5%

**INERT INGREDIENTS**

11.0%  
100.00%

\*Prometon is a registered trademark of Ciba-Geigy Corp.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**WARNING**

**KEEP OUT OF THE REACH OF CHILDREN**

May be fatal if swallowed, inhaled or absorbed through the skin. Do not breathe vapors or spray mist. Do not get in eyes, on skin, or on clothing.

**STATEMENT OF PRACTICAL TREATMENT**

**If Swallowed:** Do not induce vomiting. Call a physician immediately.  
**If Inhaled:** Move patient to fresh air. Seek medical attention.  
**If In Eyes:** Flush immediately with plenty of water for at least 15 minutes and get medical attention.  
**If On Skin:** Flush area with water and wash with soap and water. Remove contaminated clothing and wash separately.

**NOTES TO PHYSICIAN**

There is no specific antidote if PARCH is ingested. Do not induce vomiting and take care to avoid aspiration of stomach contents during gastric lavage. Give supportive and symptomatic therapy.

**ENVIRONMENTAL HAZARDS**

Do not apply directly to any body of water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes.

**PHYSICAL OR CHEMICAL HAZARDS**

Do not use or store near heat or open flame.

**DIRECTIONS**

Apply to the foliage with a spray nozzle. For maximum effectiveness, apply when the foliage is wet.

Apply to the foliage with a spray nozzle. For maximum effectiveness, apply when the foliage is wet. PARCH is a water emulsifiable herbicide that can be applied to persistent and green emergent weed growth. PARCH is a water emulsifiable herbicide that can be applied to persistent and green emergent weed growth. PARCH is a water emulsifiable herbicide that can be applied to persistent and green emergent weed growth.

**SPOT TREATMENT:** For control of annual and susceptible perennial weeds (such as downy mildew, grass, pigweed, quackgrass, puncturevine, goldenrod and plantain) thoroughly mix 2-3 pints of PARCH in 3 gallons of water and spray up to 250 square feet to give thorough and uniform coverage.

**LARGE AREA TREATMENT:** Uniformly spray one gallon of PARCH mixed in ten gallons of water per 100 square feet. Thoroughly wet foliage to insure contact. Best results are obtained when application is made while growth is succulent.

For dense vegetation, use 1-2 gallons PARCH in 10 gallons of water per 1000 square feet. For persistent perennial weeds and grasses, such as johnsongrass, bitchgrass and barnyardgrass, use 3-4 gallons PARCH in 10 gallons of water per 1000 square feet.

Although PARCH has considerable activity through foliage contact, its activity is through the roots and, therefore, adequate rainfall is necessary to move the chemical into the root zone. During seasons with excessive rainfall causing heavy weed growth, repeat treatment may be required.

For best results on emerging vegetation, apply PARCH at 1/2 to 1 1/2 oz. per 100 square feet of ground.

**PARCH SHOULD NOT BE USED ON LAND TO BE CROPPED OR NEAR DESIRABLE TREES, SHRUBS OR PLANTS.** Injury may occur. Do not apply to areas under shade of desirable trees and shrubs. Do not apply to desirable plants.

**STORAGE AND DISPOSAL**

- Do not contaminate water, food or feed by storage or disposal.
- Empty promptly from this product container.
- Do not reuse empty container.
- Store at temperatures below 100°F.
- Do not use plastic containers near heat or open flame.
- Do not store near fertilizers, seeds, insecticides or fungicides.

**PESTICIDE DISPOSAL:** Pesticide spray mixture, residue water that can not be used according to label directions must be disposed of according to applicable Federal, State or local procedures.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other approved State and Local procedures.

**WARRANTY NOTICE:** State warrants that this material conforms to the chemical description on the label and is suitable for the purposes referred to in the directions for use. This product is sold subject to the understanding that the buyer assumes all risks of use or handling which may result in loss or damage which are beyond the control of the seller, such as for example, incompatibility with other products or materials in or on the soil or crop. State makes no other express or implied warranty of fitness or merchantability. The exclusive remedy of the user or buyer and the sole liability of losses, injuries or damages resulting from the use or handling of this product shall be the purchase price paid by the user and buyer for the quantity of this product involved. The buyer and seller are deemed to have accepted the terms of this notice, which may not be altered by any oral or written agreement.
