

FEB - 6 1989

The State Chemical Manufacturing Company
3100 Hamilton Avenue
Cleveland, OH 44114

Attention: Tammy Westerman

Gentlemen:

Subject: Fix Terg-O-Cide
EPA Registration No. 1685-101
Your Amended Application Dated December 4, 1987

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling.
 - a. Refer to the enclosed Efficacy Evaluation and Technical Efficacy Review - II, and revise your labeling in accordance with the labeling comments outlined there.
 - b. Refer to the enclosed document "Label Requirements for Antimicrobial Pesticides Used on Hard Surfaces Against HIV-1 (AIDS Virus)" for EPA's current labeling policy for efficacy claims. Your labeling must be revised in accordance with the requirements outlined in this policy notice.
 - c. Delete the word "milk" from the Statement of Practical Treatment section.
2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

**FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY.
NOT INTENDED FOR HOUSEHOLD USE OR RESALE**

General Classification

State Fix Tergicide in a can is a powerful disinfectant and cleanser. It is used on hard, nonporous surfaces such as floors, walls, table tops, and fixtures. When used as directed, it kills germs and removes dirt and grime. It is also used to clean up spills and stains. It is safe for use on most surfaces and is non-toxic to humans and animals. It is also used to clean up spills and stains. It is safe for use on most surfaces and is non-toxic to humans and animals.

DISINFECTATION, DEODORIZATION AND CLEANING

To disinfect hard nonporous surfaces proceed as instructed below:
(1) Shake can before using. (2) Hold six to eight inches from surface to spray. (3) Spray area until it is covered with a white foam. Allow foam to penetrate and remain wet for 10 minutes. No scrubbing necessary. (4) Wipe off with a clean cloth, mop or sponge. State Fix Tergicide in a can will not leave grid or soap scum. For heavily soiled areas, remove gross soil before treatment. When used as directed State Fix Tergicide in a can demonstrates effective disinfection against Staphylococcus aureus, Salmonella choleraesuis, and Pseudomonas aeruginosa, thus meeting the requirements for hospital use. It is an effective one-step cleaner-disinfectant in the presence of organic soils, blood serum.

State Fix Tergicide in a can is also fungicidal against Pathogenic Fungi (Trichoglyphes) when used as directed on hard surfaces found in the bathroom, shower stall, and locker room or other clean hard nonporous surfaces commonly contacted by bare feet.

State Fix Tergicide in a can is also virucidal against HIV (AIDS virus) and Herpes Simplex Type 2 when used as directed on hard, nonporous, inanimate environmental surface.

MILDEWSTAT To control mold and mildew on pre-cleaned hard nonporous surfaces (such as floors, walls, table tops) spray surfaces to be treated making sure to wet completely. Let air dry. Repeat application at weekly intervals or when mildew growth reappears.
