

QUIST

RESISTANT ROACH & INSECT SPRAY

ACTIVE INGREDIENTS — 100% Consisting of

Petroleum Distillates
 80 diethyl 02 isopropyl-4 methyl-6-(pyrimidryl)
 phosphorothioate

N-Octyl Bicycloheptene Dicarboximide

Tech. Piperonyl Butoxide*

Pyrethrins

*Equivalent to 20% butyl (Carbityl) (6 propyl) piperonyl
 ether and 20% other related compounds

An insecticide that provides rapid action and residual kill for use wherever previous control measures have become ineffective due to the development of resistant insect strains.

CAUTION: Do not contaminate food, utensils, dishes or drinking water. Do not use as a space spray or fog. Avoid prolonged or repeated inhalation or contact with skin; wash thoroughly after using. Harmful if swallowed. Do not apply to humans, pets or birds. Keep out of reach of children. **FOR INDUSTRIAL USE ONLY.** Not for household use.

CAUTION:—Combustible Mixture

UNDER THE FEDERAL INSECTICIDE
 FUNGICIDE AND RODENTICIDE ACT
 FOR ECONOMIC POISON REGISTERED
 UNDER NO. 1451-43. SUBJECT
 TO ATTACHED COMMENTS.

RESISTANT ROACH & INSECT SPRAY is a highly effective residual and contact spray formulated for rapid action and residual control of such insects as ROACHES, SPIDERS, SILVER-FISH, ANTS, WASPS, FLIES, MOSQUITOES, GNATS, WATERBUGS, and many other similar insects by direct application when used according to directions.

DIRECTIONS

Apply only as a coarse wet spray or with a paint brush. Thorough application should be made to infested cracks, baseboards, window frames, door sills, water pipes, etc. or other areas where insects have been running, resting or hiding. Repeat application as necessary to maintain effective control.

As a contact and residual insecticide, may be applied with a mist spray gun. It is (especially) effective wherever crawling insects are a problem such as Flour Mills, Bakeries, Confectioneries, Tobacco Warehouses, Food Plants, Restaurants and Railroad Equipment.
