NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) and section 4 when the Agency requires all registrants to similiar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment.
 - a. Add the phrase "EPA Registration No. 1691-115".
 - b. Add the heading "Environmental Hazards" and revise the "Environmental Hazards" statement to read: "This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless ~~this product~~ ^{me} in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL	DATE
	

- c. Under the heading "Directions For Use" change "For Emergency Treatment Of Polluted Water" to read "For Emergency Treatment Of Contaminated Water."
- d. Under the heading "Directions For Use" change "...Suspected Polluted Water" to read "...Suspected Contaminated Water."

Submit one copy of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION

Tablets may be harmful if swallowed. Avoid contact with skin, eyes, or clothing. Contact with eyes, skin and mucous membranes will cause irritation. This pesticide is toxic to fish. Do not discharge water containing this product into lakes, streams, ponds, estuaries, or oceans.

STORAGE AND DISPOSAL

Store tablets in sealed containers away from excessive heat or direct sunlight. Discard empty bag or tablet wrappers in suitable trash containers.

Manufactured by TRUETECH, INC.
680 ELTON STREET RIVERHEAD NY 11901-2585

ACCEPTED EPA REGISTRATION NO. EPA ESTABLISHMENT NO. 01691-NY-1
with COMMENTS NET CONTENTS 7.2 GRAMS (12 x 600 milligram tablets)
in EPA Letter Dated:

AUG 21 1988

Under the Federal Insecticide, Fungicide, and Rodenticide Act or amendments for the pesticide registered under EPA Reg. No. 1491-115

DIRECTIONS FOR USE

FOR EMERGENCY TREATMENT OF POLLUTED WATER

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

OXYCLEAR TABLETS are intended for the emergency disinfection and clarification of suspected water, in situations where municipally treated drinking water is not available. After application a sediment will appear which can be filtered out by pouring through a piece of cloth (Cotton Oxford Duck). Each 600 mg OXYCLEAR tablet can CLARIFY AND DISINFECT ONE LITER OF SUSPECTED POLLUTED WATER.

1. Add one or two 600 milligram tablet(s) to one liter (1.1 quarts) of water according to the following use directions:

Temperature of water	Number of tablets	Waiting period after step 4
41° F (5°C)	2	15 minutes
50° F (10°C)	2	15 minutes
59° F (15°C)	2	15 minutes
77° F (25°C)	1	7 minutes

2. Swirl for one minute to make sure tablet(s) completely disintegrates. DO NOT SHAKE VIGOROUSLY
3. Set aside for four minutes.
4. Swirl for ten seconds.
5. Wait seven minutes, at temperatures of 77°F (25°C) or above, or fifteen minutes at colder temperatures as described above. Keep open to the air during waiting period. Pour off clear top layer into double layer of the Cotton Oxford Duck cloth. Collect filtrate into a clean container. If treated water cannot be seen while pouring off, then slowly pour off top layer until sediment is seen, then stop. The clarified water is now ready for drinking. If the filtered water is still cloudy, add a half tablet more and repeat steps 2 through 5.

IMPORTANT: DISCARD SEDIMENT BETWEEN USES. RINSE CLOTH THOROUGHLY WITH TREATED WATER. ALWAYS USE SAME SIDE OF CLOTH AS TOP SIDE FOR STRAINING.
