Controlling cross-infection is of major house-keeping concern not only in hospitals, but in schools, institutions, and industry. HC 54 DISINFECTANT CLEANER is formulated for this problem area. It both cleans and disinfects effectively when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-infection.

Two ounces of HC 54 DISINFECTANT CLEANER per gallon of water will deodorize bathrooms, garbage storage areas, and other areas where mal odors frequently occur.

DANGER

Keep out of reach of children. Causes eye damage and skin irritation. Protect eyes when handling. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, do not induce vomiting. Drink large quantities of fluid and call a physician immediately.

METRO HC 54
DISINFECTANT CLEANER
Cleaner-Disinfectant-Deodorizer-Fungicide
For Hospital and Institutional Use

AOAC PHENOL COEFFICIENTS	
Staph. aureus (ATCC No. 6538)	100
Salmonella typhosa (ATCC No. 6357)	50
ACTIVE INGREDIENTS	
Didecyl dimethyl ammonium chloride	4.5%
Tetrasodium ethylenediamine tetraacetate	2.0%
Sodium carbonate	1.0%
Sodium metasilicate, anhydrous	0.5%
INERT INGREDIENTS	92.0%
	100.0%
EPA REGISTRATION NO.	1696-50

DANGER	
KEEP OUT OF REACH OF CHILDREN	
SEE LEFT PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.	

USE DIRECTIONS:
Apply HC 54 DISINFECTANT CLEANER to walls, floors, and other hard surfaces with a sprayer, cloth, or mop in such a manner as to wet surfaces thoroughly with the recommended use dilution. For heavily soiled areas, a preliminary cleaning may be required.

For Hospitals & Nursing Homes: Add two ounces per gallon of water.

At two ounces per gallon use-level, HC 54 DISINFECTANT CLEANER is effective against Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella choleraesuis, Escherichia coli, and pathogenic fungi. Germicidal performance against the first four organisms has been confirmed by the AOAC Use-Dilution Test. Fungicidal performance was determined against T. interdigitale by the AOAC Fungicidal Test.

For Schools, Institutional and Industrial Uses: Add one ounce per gallon of water.

At one ounce per gallon use-level, HC 54 DISINFECTANT CLEANER delivers excellent cleaning and is germicidal. It is effective against Staphylococcus aureus, Salmonella choleraesuis, Escherichia coli, and Trichophyton interdigitale, the athlete's foot fungus. The same AOAC tests used above to confirm suitable performance for hospitals were used.

Rinse empty container with water before discarding.
