

WINRU

PYRENONE® "2" SPRAY

•Reg. U. S. Patent Off. F.M.C.

Winru Pyrenone "2" Spray is designed especially for use in food manufacturing plants for the control of the accessible stages of the confused flour beetle, Cadelle, Indian meal moth, Angoumois grain moth, flat grain beetle, and sawtoothed grain beetle.

DIRECTIONS:

For best results, spray as a coarse mist in those places where the insecticide will come into contact with the exposed stages of the insects named above.

E.P.A. Reg. No. 1700-169
E.P.A. Est. No. 485-MO-1

ACTIVE INGREDIENTS: 100%

**Technical Piperonyl Butoxide	-----	2.00%
Pyrethrins	-----	.20%
Petroleum Distillate	-----	97.80%

**Equivalent to 1.6% (butylcarbityl) (6-propylpiperonyl) ether and 0.4% related compounds.

CAUTION: KEEP OUT OF REACH OF CHILDREN.

HARMFUL IF SWALLOWED. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using Pyrenone "2" Spray in these areas, apply only when the facility is not in operation.

Direct the spray around the base of machinery, in cracks and corners where the insects are likely to be hiding. For control of small flying moths, flies, gnats and mosquitoes this spray may be fogged by any mechanical or thermal fog generator at the rate of one-half ounce per 1000 cubic feet of space.

For maximum efficiency, all doors and windows should be closed during the fogging operation and remain closed for at least ten minutes after the fogging operation. The fallen insects should be swept up after the end of the 10 minute period. Treatments may be repeated as needed.

Do not reuse empty drum. Return to drum conditioner or destroy by perforating or crushing and burying in a safe place away from water supplies.
