Other chlorophenols .....	0.09%

INERT INGREDIENTS: ..... 1.31%

Total ..... 100.00%

\*2,4-Dichlorophenoxyacetic acid equivalent..... 0.70%

USDA Registration No. 1706-37

# NALCO CHEMICAL COMPANY

6216 W. 66th Place • Chicago, Illinois 60638

NET CONTENTS SHOWN ELSEWHERE ON CONTAINER

**DIRECTIONS:** To control most weeds and grasses on non-cropland areas such as railroad rights-of-way and industrial sites for an extended time, apply 43.5 gallons per acre of undiluted NalKil 250 after the most predominant weeds have emerged. No agitation is required. NalKil 250 should be applied with railroad on-track, truck mounted, or other standard spraying equipment. For treating small areas, a tank-type hand sprayer or sprinkling can may be used.

**NOTE:** Users should consult State Agricultural Experiment Stations or Extension Service Weed Specialists for recommendations as to use of NalKil 250 in their particular area, or write to Nalco.

**IMPORTANT:** Do not apply directly to, or otherwise permit NalKil 250 to contact susceptible plants as this product may injure cotton, beans, peas, grapes, flowers, fruit trees, ornamentals, or other desirable plants. Avoid spray drift to such susceptible plants (course sprays are less likely to drift). Vapors from this product may injure susceptible plants in the immediate vicinity. Thoroughly clean spray equipment with a suitable chemical cleaner before using for other purposes (or do not use same equipment for other purposes.) Do not store near fertilizers, seeds, insecticides or fungicides. Do not re-use this container.

NalKil 250 is toxic to fish. Do not contaminate any body of water.

**WARNING:** HARMFUL IF SWALLOWED. CAUSES SKIN IRRITATION. Avoid contact with skin, eyes and clothing. Wash thoroughly after handling. In case of contact, flush with large amounts of water; for eyes, get medical attention. Remove and wash contaminated clothing before re-use.

FOR INDUSTRIAL USE ONLY
