Other Chlorophenols	0.54%
INERT INGREDIENTS:	7. 90 %
Total	100.0%

*2, 4 Dichlorophenoxyacetic acid equivalent 4 29%

EPA Registration No. 1706-106

DIRECTIONS: This product should not be applied directly but should be diluted by adding 7 gallons of NalKil 400 Concentrate with Endrift to 36.5 gallons of phytotoxic oil vehicle and mixing thoroughly. To control most weeds and grasses on non-cropland areas such as railroad rights-of-way and industrial sites for an extended time, apply 43.5 gallons per acre of diluted product after the most predominant weeds have emerged. Apply when weeds are young and actively growing. After dilution no further agitation is required. The diluted product should be applied with railroad on-track, truck-mounted or other standard spraying equipment. For treating small areas, a tank-type hand sprayer or sprinkling can may be used.

NOTE: Users should consult State Agricultural Experiment Stations or Extension Service Weed Specialists for recommendations as to use of NalKil 400 Concentrate with Endrift in their particular area or write Nalco.

IMPORTANT: Do not apply directly to, or otherwise permit NatKil 400 Concentrate with Endrift or its diluted form to contact susceptible plants as this product may injure cotton, beans, peas, grapes, flowers, fruit trees, ornamentals, or other desirable plants. Do not apply to areas underlaid by roots of desirable trees or shrubs. Avoid spray drift to such susceptible plants (coarse sprays are less likely to drift). Vapors from this product may injure susceptible plants in the immediate vicinity. Thoroughly clean spray equipment with a suitable chemical cleaner before using for other purposes (or do not use same equipment for other purposes). Do not store near fertilizers, seeds, insecticides or fungicides. Do not reuse this container. Destroy when empty.

NalKil 400 Concentrate with Endrift is toxic to fish and wildlife. Do not contaminate any body of water. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

WARNING: HARMFUL IF SWALLOWED OR ABSORBED THROUGH SKIN. CAUSES SKIN IRRITATION.

Do not get in eyes, on skin or on clothing. Avoid breathing of vapor. Do not use, pour, spill or store near heat or open flame. Keep container closed when not in use. In case of contact, immediately wash skin with soap and water for at least 15 minutes; for eyes, immediately flush with large amounts of water for at least 15 minutes and get medical attention. Remove and wash contaminated clothing before reuse.
