This bag has a ~~SLIP~~ RESISTANT surface!

This bag has been treated with COLLOIDAL SILICA to frictionize the surface and minimize sliding. It stacks more securely for shipping, handling, storing . . . provides extra protection for the product and the personnel who handle and transport it.

Colloidal Silica is another product of NALCO CHEMICAL COMPANY

NALKIL

2413 GRANULAR

WEED KILLER

ACTIVE INGREDIENTS:

Bromacil (5-Bromo-3-sec-butyl-6-methyluracil)	2.0%
Diuron [3-(3, 4-dichlorophenyl)-1, 1-dimethylurea]	2.0%
INERT INGREDIENTS:	96.0%
Total	<u>100.0%</u>

EPA Registration No. 1706-125

Nalkil Weed Killer 2413 Granular is a non-selective herbicide for controlling a wide range of annual and perennial weeds and grasses. It is recommended only for non-

dependent upon rainfall, soil type and other conditions.

DIRECTIONS: Nalkil Weed Killer 2413 Granular should be applied as furnished with a seed spreader, a fertilizer spreader, a shaker type applicator, or with any equipment which will distribute the chemical uniformly over the area to be treated. Application equipment is available from Nalco. For the control of annual and most perennial weeds and grasses, apply Nalkil 2413 Granular at the rate of 200-400 pounds per acre, on the smaller plots, 0.5-1.0 pounds per 100 square feet. 400-800 lbs. per acre of repeat spot treatment may be required when deep rooted perennial weeds are present. To obtain the best results, Nalkil 2413 Granular should be applied to the ground where it will be absorbed by the roots. Applications made early in the season have been found to give results superior to applications at a later seasonal date. Nalkil 2413 Granular may, however, be applied at any time of the year. Maximum effectiveness in arid regions is obtained when application is made just prior to the rainy season. Users should consult state agricultural experiment stations or extension service weed specialists for recommendations as to use in their particular area or write to Nalco.

IMPORTANT: Do not apply on or near valuable woody or herbaceous plants or on areas where their roots may extend, because of possible injury to such plants. Thoroughly clean spreading equipment with a suitable chemical cleaner before using for other purposes (or do not use same spreading equipment for other purposes). Do not store near fertilizers, seeds, insecticides or fungicides. Store away from and do not contaminate feed and foodstuffs. Do not contaminate irrigation ditches or water used for domestic purposes. Do not use on croplands or any land to be used for subsequent cropping. Keep animals off treated areas. Do not reuse this container; destroy when empty.

CAUTION: MAY CAUSE IRRITATION TO SKIN, EYES, NOSE AND THROAT. Avoid contact with skin, eyes and clothing. Avoid breathing dust. In case of contact, wash skin with soap and water; for eyes, immediately flush with large amounts of water for at least 15 minutes, and get medical attention. Remove and wash contaminated clothing before reuse.
