**Name of Pesticide Product:**
Nalcon 7330

**Term of Issuance:** Conditional

**Name and Address of Registrant (include ZIP Code):**
Nalco Chemical Company
One Nalco Center
Naperville, IL 60563-1193

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under the Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document for Methylisothiazolene RED, EPA has reregistered the above name product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

1. Make the following label changes:
   - a. Revise the EPA Registration Number to read "EPA Reg. No. 1706-153".
   - b. The word "PELIGRO" must be added to the label, following the signal word.

**Signature of Approving Official:**
Marshall Swindell, PM 33
Regulatory Management Branch 1
Antimicrobial Division (7510W)

**Date:** DEC 22 2000
c. The heading "Statement of Practical Treatment" must be changed to "First Aid" and the statements must be revised as follows:

**IF IN EYES:**

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

**IF SWALLOWED:**

Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor.

**IF ON SKIN:**

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment.

**IF INHALED:**

Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment.

d. Revise the "Precautionary Statements" that appear under the subheading "Hazards to Humans and Domestic Animals" to read:

"Causes irreversible eye damage or skin burns. May be fatal if absorbed through skin. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Remove contaminated clothing and wash before reuse."

e. Include a "Physical and Chemical Hazards" heading and place the phrase "This product is corrosive to mild steel". This product as supplied evolves gas ....contents through the vent".

EPA Registration No. 1706-153

f. In the Storage and Disposal section, change the subheading “Prohibitions” to “Pesticide Storage” and include the word “water” to the statement “Do not contaminate food or feed by storage, disposal, or cleaning of equipment.”

g. Include the statement “Do not apply this product in a way that will contact workers or other persons” to fall directly below the storage and disposal section.

h. On the product labeling, the concentration of the active ingredients must be changed for 5-chloroethyl-4-isothiazolin-3-one from 1.15% to 1.11% a.i. and for 2-methyl-4-isothiazolin-3-one from 0.35% to 0.39% a.i., respectively.

i. A statement “The product contains the active ingredients at 0.127 pounds per gallon.” must be placed directly under the ingredient statement.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records. Submit two (2) copies of final printed labeling for our review.

If you have any questions concerning this letter, please contact Martha Terry at (703) 308-6217.

Sincerely,

Marshall Swindell
Product Manager 33

Antimicrobial Division (7510C)
CROPSUSIVE. CAUSES EYE DAMAGE AND SKIN BURNS. MAY CAUSE DERMATITIS. USE PROTECTIVE GLOVES AND FACE SHIELD AND CHEST PANTS.

STORAGE AND DISPOSAL

PROHIBITIONS

- Do not store or transport in unlined metal containers.
- Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

PESTICIDE DISPOSAL

- Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinse is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

- METAL CONTAINERS: Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
- PLASTIC CONTAINERS: Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by incineration, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

GENERAL

- CONSULT FEDERAL, STATE, OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES.

DIRECTIONS FOR USE:

- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

INDUSTRIAL RECIRCULATING COOLING TOWERS AND PROCESS WATER SYSTEMS

(As such pretreatment systems and process waters used for making metal or plastic parts are point source discharges. For control of bacteria, algae, and fungi, add NALCO 7330 to the tower basin, distribution box or some other point in the system to insure uniform mixing. Badly fouled systems must be precleaned before treatment is begun.

INITIAL DOSE: When the system is noticeably fouled apply 2.46 to 7.46 lbs (37 to 121 fluid ounces) of NALCO 7330 per 1000 gallons of water in the system. Repeat until control is achieved.

SUBSEQUENT DOSE: When microbial control is evident, add 1.26 to 1.86 lbs (19 to 28 fluid ounces) of NALCO 7330 per 1000 gallons of water in the system weekly or as needed to maintain control.

INDUSTRIAL RECIRCULATING CLOSED LOOP WATER COOLING SYSTEMS

For the control of bacteria, algae, and fungi, add NALCO 7330 to the reservoir, recirculating line or some other point in the system to insure uniform mixing.

INITIAL DOSE: When the system is noticeably fouled, apply 1.26 to 7.46 lbs (19 to 121 fluid ounces) of NALCO 7330 per 1000 gallons of water in the system. Repeat until control is achieved.

SUBSEQUENT DOSE: When microbial control is evident, add 0.3 to 1.86 lbs (4.5 to 28 fluid ounces) of NALCO 7330 per 1000 gallons of water in the system weekly or as needed to maintain control.

AIR WASHER SYSTEMS AND BREWERIES

For control of bacteria, algae, and fungi, add NALCO 7330 to a point in the system where uniform mixing can occur such as the basin. For use in industrial air washer systems that maintain effective mist eliminating components. Badly fouled systems must be precleaned before treatment is begun.

INITIAL DOSE: When the system is noticeably fouled, add 1.26 to 7.46 lbs (19 to 121 fluid ounces) of NALCO 7330 per 1000 gallons of system water. Repeat until control is achieved.

SUBSEQUENT DOSE: When microbial control is evident, add 0.3 to 1.86 lbs (4.5 to 28 fluid ounces) of NALCO 7330 per 1000 gallons system water weekly or as needed to maintain control.
