

APR 30 2003

Mr. Claude H. Wolfe
Ondeo Nalco Company
Naperville, IL 60563-1198

Subject: Acti-Plus® 2818 Stabilized Sodium Hypochlorite
EPA Registration Number 1706-171
Application Date: March 26, 2003
Receipt Date: April 1, 2003

Dear Mr Wolfe:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- To revise the "First Aid" statement in accordance with PR Notice 2001-1.

Conditions

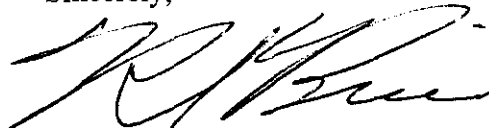

- Place the heading "PRECAUTIONARY STATEMENTS" above "Hazards to Humans and Domestic Animals".
- Under the "Precautionary Statements" place a period (.) after the word CORROSIVE.

General Comments

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.0

If you have any questions regarding this letter, please contact Delores Williams at (703) 308-6372.

Sincerely,

Robert S. Brennis
Product Manager 32

Regulatory Management Branch II
Antimicrobials Division (7510C)

PRECAUTIONARY STATEMENTS HAZARDS TO
HUMANS AND DOMESTIC ANIMALS

DANGER:

CORROSIVE CAUSES SEVERE EYE AND SKIN INJURY.
HARMFUL IF INHALED. HARMFUL IF SWALLOWED.

Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Remove and wash contaminated clothing before reuse. Wash thoroughly after handling.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Apply this pesticide only as specified on this label.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food, or feed by storage, disposal or cleaning of equipment.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL:

METAL CONTAINERS: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

PLASTIC CONTAINERS: Do not reuse empty container. Triple rinse (or equivalent). Then puncture and dispose of in a sanitary landfill, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

ACTI-PLUS® 2818

**STABILIZED SODIUM
HYPOCHLORITE**

ACTIVE INGREDIENT:

Sodium Hypochlorite.....8.34%

INERT INGREDIENTS:.....91.66%

Total.....100.00%

Available Chlorine.....7.9%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

FIRST AID

If swallowed:

- Call a poison control center or a doctor immediately for treatment advice.
- DO NOT INDUCE VOMITING.
- Do not give anything to drink.

If in eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- After at least 15 minutes of rinsing or after it is judged that nearly all of the contamination has been removed. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
- Call a poison control center or a doctor immediately for treatment advice.

If on skin or clothing:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or a doctor for treatment advice.

If inhaled:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or a doctor for further treatment advice.

NOTE TO PHYSICIAN:

Aspiration may cause lung damage. Probable mucosal damage may contraindicate the use of gastric lavage.

Have the MSDS and, if available, the product container or label with you when calling a poison control center or a doctor, or going for treatment.

**SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY
STATEMENTS.**

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

ACTI-PLUS 2818 is an effective agent for controlling algal, bacterial, and fungal slime in condensing and cooling equipment in which recirculating water is used as the cooling medium and in reservoirs or ponds which serve as the source of boiler feedwater or cooling water. ACTI-PLUS 2818 can also be used to control bacterial and algal slime in decorative fountains and brewery pasteurizers.

**INDUSTRIAL AND COMMERCIAL RECIRCULATING
WATER COOLING TOWER SYSTEMS**

ACTI-PLUS 2818 should be applied directly to the cooling water at any section of the system where sufficient mixing will occur. ACTI-PLUS 2818 should be applied to the cooling water to provide a total chlorine level of 2-4 ppm. ACTI-PLUS 2818 at a dosage of 1.25 fluid ounces per 1,000 gallons of water gives a dosage of approximately 1 ppm of total chlorine, but several times that dosage may be required to provide a total chlorine level of 1 ppm throughout the system. The total chlorine level should be checked with a test kit and additional applied until a reading of 2-4 ppm is obtained at the bleed-off point. Some systems may be maintained in satisfactory biological condition by applying this dosage once per day while others will respond better to dosages less than once per day.

COOLING PONDS AND RESERVOIRS

ACTI-PLUS 2818 may be applied at the reservoir or pond inlet or at a location that permits complete diffusion into the water at maximum retention time before reaching the outlet. Sufficient ACTI-PLUS 2818 should be fed to maintain a total chlorine level of 2-4 ppm in all parts of the reservoir or pond (1.25 fluid ounces per 1000 gallons of water yields 1 ppm total chlorine).

DECORATIVE FOUNTAINS

ACTI-PLUS 2818 may be applied to the decorative fountain inlet or at a point where sufficient mixing will occur at a level to maintain 2-4 ppm total chlorine in all parts of the fountain. (Do not use in fountains which contain fish or other aquatic fauna.)

BREWERY PASTEURIZERS

For control of bacteria and fungi in brewery pasteurizers add 3.5-7.0 ounces of ACTI-PLUS 2818 per 1000 gallons of system water to achieve control. To maintain control add sufficient ACTI-PLUS 2818 to maintain 2-4 ppm total chlorine in the system. (1.25 fluid ounces per 1000 gallons of water yields 1 ppm total chlorine.)

DO NOT
USE WITH COMMENTS
