Phenol Coeff: S. aureus—32
S. typhosa—42

CONCENTRATED
DISINFECTING CLEANER
& DEODORIZER

HY-GARD®

ACTIVE INGREDIENTS: n-Alkyl (50% C14, 40% C12, 10% C16) dimethyl benzyl ammonium chloride 5.0%, Sodium ~~perchlorate 1.0%, Tetrasodium ethylene diamine tetraacetic acid 1.0%, Cocoyl PEG-7 1.0%~~
INERT INGREDIENTS: 89.90%. Includes detergents, certified colors and other non-toxic agents.

RUBIOL HY-GARD CLEANER 89.90%
 SODIUM METABISULFATE 1.0%
 DETERGENTS AND CO-SOLVENTS
 HYGIENIC, TETRA SODIUM
 ETHYLENE DIAMINE ETX

DANGER: KEEP OUT OF REACH OF CHILDREN

CONTENTS: 128 FL. OZ. (1 Gallon)

See First Aid Statement and other precautions on back panel.

E P A Reg. No. 1712-6

HYDROL CHEMICAL CO., PHILA., PA. 19104—SINCE 1929

DISINFECTANT—CLEANER—SANITIZER—FUNGICIDE—DEODORANT
USE DIRECTIONS

FOR CLEANING

Lightly soiled areas—surfaces to be cleaned should be mopped or brushed with a solution containing 1 ounce of HY-GARD per gallon of water. Rinse cleaned area with fresh water.

Heavily soiled areas—mop or brush soiled surface with a solution containing 2-3 ounces of HY-GARD per gallon of water. Rinse cleaned surface with fresh water.

GENERAL PURPOSE DISINFECTION

To disinfect walls, floors and other hard surfaces in homes, schools, restaurants, rest rooms and other public areas, mop or brush surface to be treated with a solution containing 1 ounce of HY-GARD per gallon of water. Surfaces that are heavily soiled should be cleaned with 1-2 ounces of HY-GARD per gallon of water and then disinfected. Those surfaces which may later come in contact with food must be rinsed with clear water of drinking quality.

To disinfect locker rooms, shower stalls, walkways around pools and other areas against pathogenic fungi, mop area with a solution containing 1/2 ounce in 1 gallon of water. This solution will destroy *Trichophyton interdigitale*, a causative agent of athlete's foot.

HOSPITAL DISINFECTION

To disinfect walls, floors, furniture and other hard surfaces in hospitals and nursing homes, mop or brush surface to be treated with a solution containing 2 ounces of HY-GARD per gallon of water. Those surfaces that are heavily soiled with blood, fecal material or exudates should be thoroughly scrubbed with a solution containing 2 ounces per gallon of water and then rinsed with a fresh solution containing 2 ounces per gallon of water before disinfection.

SANITIZATION

To sanitize walls, floors and equipment in food processing plants, first clean thoroughly with a solution containing 1/2 ounce of HY-GARD per gallon of water. If surface is heavily soiled, use HY-GARD at a rate of 2-3 ounces per gallon to insure thorough cleaning. Sanitize cleaned surface with a rinse solution containing 1/2 ounce of HY-GARD per gallon of water. Treated food contact surfaces must be rinsed with potable water prior to reuse.

DEODORIZATION

To deodorize surfaces during cleaning, mop or brush surfaces with a solution containing 2 ounces of HY-GARD per gallon of water. HY-GARD is an effective antibacterial cleaner designed for use in household, industrial and institutional cleaning. When used as directed, HY-GARD will disinfect hard surfaces, such as floors, walls, counter tops and furniture. It may be relied upon to deodorize bathroom areas, garbage pails, food storage areas, kennel areas and other areas where obnoxious odors may develop. This product may be used as a general purpose antibacterial-antifungal detergent in homes, schools, restaurants, hospitals, nursing homes, public rooms, food processing plants and in other places where efficient cleaning and antimicrobial action is desired. See left panel for use directions.

DANGER

KEEP OUT OF REACH OF CHILDREN.

Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of water, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

~~Container Disposal: When empty, rinse container thoroughly with water and empty it by washing or burying in a safe place.~~

Do not contaminate water, or feed, by storage or disposal. Open during a protected storage and disposal.

Pesticide wastes are toxic. Improper disposal of pesticide wastes may constitute a violation of Federal Law. If these wastes cannot be disposed of by the user, contact your State Pesticide or Environmental Control Agency or the nearest EPA Regional Office for disposal instructions.

Plastic containers: Single rinse for equipment. Then offer for recycling or reconditioning, or burn and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

CONTAINER DISPOSAL

Do not contaminate water, or feed, by storage or disposal. Open during a protected storage and disposal.

PESTICIDE DISPOSAL

Plastic containers: Single rinse for equipment. Then offer for recycling or reconditioning, or burn and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
