Mobile Paint Manufacturing Company, Inc.
 P.O. Box 717
 Theodore, AL 36590

BEST AVAILABLE COPY

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 1719-38."
 - b. Refer to our letter dated December 22, 1980, paragraph 2. The immersion period for the treatment of the materials is 12 to 48 hours, not 12 to 24 hours as stated on the product label. Make this label change prior to releasing this product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL _____ DATE _____

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Precautionary Statements.

CLEAR

artificial respiration and get medical attention. If swallowed, do not induce vomiting. Get medical attention immediately.

ENVIRONMENTAL HAZARD

Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply directly to water or wet lands.

PHYSICAL AND CHEMICAL HAZARD

Keep away from heat and open flame.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is not intended for use on food, feed, potable water, living plants, livestock, dairy animals, or on wood surfaces where there will be frequent or prolonged skin contact.

Zin-Tox 202 preserves and protects all types of unpainted wood surfaces, lumber, timbers, fish nets, rope or twine.

Fish net, rope, or twine should be dipped in Zin-Tox 202 to thoroughly saturate the fibers.

Zin-Tox 202 may be applied by brushing freely, spraying, or dipping in a tank or trough.

applied.

Zin-Tox 202 may be painted over in 24 hours as it contains no creosote or tar products.

Shake well before using. Apply Zin-Tox 202 generously to all joints, cracks and end grains. If any cuts or holes are made after the initial treatment, Zin-Tox 202 should be reapplied to those areas.

All wood which is to come in contact with the earth should receive two flowing coats by brushing or spraying or be dipped for at least 5 minutes for each inch of thickness. For best results fence posts, poles, foundations, timbers and heavy wooden members should be free of bark, dry and well seasoned, and immersed in the product for a period of 12 to 24 hours. Other surfaces require only one coat.

Zin-Tox 202 covers 300 Square feet per gallon, one coat.

STORAGE AND DISPOSAL

PROHIBITIONS

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE

Do not store near heat or open flame. Store in original container only. Close container after each use. Keep in a locked storage area and out of reach of children.

PESTICIDE DISPOSAL

Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the hazardous waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
