TESCO GIDE™

ALGAE CONTROL

HYDROTECH™

CHEMICAL CORPORATION
A Subsidiary of Great Lakes Chemical Corporation

ACTIVE INGREDIENT:

N-Alkyl (50% C₁₄, 40% C₁₂, 10% C₁₆) Dimethyl

Benzyl Ammonium Chloride. 40%

INERT INGREDIENTS. 60%

100%

Net Contents-1 Quart (0.95 Liters)

DANGER: Keep out of reach of children.
See other warnings on back panel.

ACCEPTED

MAR 13 1986

Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under
EPA Reg. No. 1729-85

STATEMENT OF PRACTICAL TREATMENT. If swallowed, drink promptly a large quantity of milk, egg whites, or water. Call a physician. In case of skin or eye contact, flush with plenty of water for at least 15 minutes. For eyes, seek medical attention promptly. Note to Physician. Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsions may be needed.

PRECAUTIONARY STATEMENTS. HAZARDS TO HUMANS AND DOMESTIC ANIMALS. DANGER. CORROSIVE. Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS. This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of EPA.

PHYSICAL AND CHEMICAL HAZARDS. Do not mix with soap or anionic materials. Tesco-Cide is compatible with most chemicals commonly used in swimming pool maintenance; however, in its concentrated form this chemical should not come in contact with high concentrations of chlorine. Do not mix Tesco-Cide and chlorine together before adding to the pool water. These chemicals should be handled separately. May be corrosive to iron, brass, aluminum, lead and tin.

STORAGE AND DISPOSAL. Store in a cool, dry area away from heat, fire, sparks or open flames. In case of spill, flood area with large volumes of water. DO NOT REUSE EMPTY CONTAINER. Rinse empty container thoroughly and discard in trash.

DIRECTIONS FOR USE. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

The presence of algae in outdoor swimming pools is objectionable because of the color, cloudiness, odor, and increased sanitizer demand of the water. The use of TESCO-CIDE Algae Control will help to maintain the water in a clear condition.

ACCEPTED
MAR 13 1986
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 1729-85

In freshly filled pools or pools showing no visible algae growth, add 8 oz. of TESCO-CIDE Algae Control per 10,000 gallons of water to prevent algae growth. If algae growth is observed, add 16 oz. of TESCO-CIDE Algae Control per 10,000 gallons of water to kill and control those algae species most commonly found in swimming pools. When existing growth is dead, clean the pool, drain and refill if necessary, and add 8 oz. of TESCO-CIDE Algae Control per 10,000 gallons of water.

If the pool water treated as above is recycled, add 8 oz. of TESCO-CIDE Algae Control per 10,000 gallons of water every 5 to 7 days to maintain between 2 and 5 ppm of active ingredient. If the treated pool water is not recycled or filtered, it should be tested periodically with a quaternary ammonium compound test kit to determine the active ingredient content. When necessary, 8 oz. of TESCO-CIDE Algae Control per 10,000 gallons of water should be added to maintain 2 to 5 ppm active ingredient.
