TO CLOSE: Place lid on container, press edges down snapping lid on

# Spa Brom Mini Paks

DISINFECTANT FOR SPAS AND HOT TUBS

**HYDROTECH**  
CHEMICAL CORPORATION

#### ACTIVE INGREDIENTS

Bromine 3.14%

Sodium hypochlorite 0.5%

#### INERT INGREDIENTS

Available Bromine 6%

Available Chlorine 2%

**DANGER:**  
KEEP OUT OF REACH OF CHILDREN.  
See first aid and other precautions on back panel.

## SPA BROM MINI PAKS

**STATEMENT OF PRACTICAL TREATMENT:** If swallowed, drink raw egg white, milk or mucilage, follow with emetic (tablespoon of mustard in glass of warm water). Call a physician immediately. In case of eye contact, flush eyes copiously with water for at least 15 minutes and get medical attention. After handling, wash hands thoroughly.

**PRECAUTIONARY STATEMENTS - HAZARDS TO HUMANS AND DOMESTIC ANIMALS:** DANGER: Poisonous if swallowed. Do not breathe dust. Irritating to nose and throat. Do not get in eyes, on skin or on clothing. Corrosive: Direct eye contact causes severe eye irritation. After handling, wash hands thoroughly. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Do not discharge into lakes, streams, ponds or public water unless in accordance with an NPDES permit. For guidance, contact the regional office of EPA.

**PHYSICAL AND CHEMICAL HAZARDS:** Strong oxidizing agent. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, hazardous gases and possible fire and explosion. In case of contamination or decomposition, do not reuse container. If possible, isolate container in open air or well ventilated area. If necessary, flood with large volumes of water.

**DIRECTIONS FOR USE:** It is a violation of federal law to use this product in a manner inconsistent with its labeling.

When used as directed, SPA BROM is effective as a spa and hot tub water disinfectant. To keep spa and hot tub water sparkling clean and odor free, place SPA BROM MINI-PAK(S) in the skimmer basket or directly in the water by hanging it on the thermometer line near a return. Use one MINI-PAK per 300 gallons or fraction of water to be treated. Replace with new MINI-PAK(S) when the SPA BROM has been dissolved. Maintain active bromine residual between 1.0 and 5.0 ppm at all times. The pump and filter should be operated for at least three hours every day. To conserve energy, use the heater only when the spa or hot tub is to be used. Do not heat water above 105°F. Keep the spa free of leaves and other debris. Backwash or clean the filter often. In heavily used commercial spas or hot tubs, drain and refill with fresh water every 4 days. In commercial spas or hot tubs with average use, drain and refill with fresh water every 8 days. Residential spas and hot tubs should be drained and refilled with fresh water every 60 days. Before refilling, clean the sides with a non-abrasive, low-foaming cleaner and rinse thoroughly each time the spa or hot tub is drained. Keep pH between 7.4 and 7.8 and never allow it to fall below 7.0. Use a good test kit often to test bromine residual and pH.

**STORAGE AND DISPOSAL:** Keep product dry in closed container when not in use. Store in a cool, dry, well-ventilated area away from heat, open flames and organic chemicals. Place in trash collection or dispose in approved landfill area or bury in a safe place. Do not reuse pesticide container.

NET CONTENTS: 6 Mini Paks  
Approx. 56 gm Mini Pak

PRODUCT CODE: SBR
