**STATEMENT OF PRACTICAL TREATMENT.** If swallowed, drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Call a physician immediately. In case of skin contact, wash thoroughly with soap and water. In case of eye contact, flush eyes copiously with water for at least 15 minutes. Seek medical attention promptly.

**PRECAUTIONARY STATEMENTS. HAZARDS TO HUMANS AND DOMESTIC ANIMALS. DANGER. CORROSIVE.** Causes irreversible eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear rubber gloves when handling. Avoid breathing dust. Irritating to nose and throat. Remove and wash contaminated clothing before reuse. Harmful if swallowed.

**ENVIRONMENTAL HAZARDS.** This product is toxic to fish. Do not discharge into lakes, streams, ponds or public water unless in accordance with an NPDES permit. For guidance, contact your regional office of EPA.

**PHYSICAL AND CHEMICAL HAZARDS.** Strong oxidizing agent. Mix only with water. Use clean, dry utensils and equipment. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, hazardous gases and possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. If necessary, flood with large volumes of water.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

When used as directed, SpaBrom Tablets are effective as a spa and hot tub water sanitizer and disinfectant. To keep spa and hot tub water sparkling clean and odor free, place SpaBrom Tablets in a feeder. Use three tablets per 100 gallons, or fraction, of water to be treated. Add new tablets as needed to maintain an active bromine residual between 2 to 4 ppm in residential spas and 4 to 6 ppm in commercial spas. The feeder, filled with SpaBrom Tablets, should then be operated as per manufacturer's recommendations. The pump and filter should be operated for at least three hours every day. To conserve energy, use the heater only when the spa or hot tub is to be used. Do not heat water above 105°F. Keep the spa free of leaves and other debris. Backwash or clean the filter often. In heavily used commercial spas or hot tubs, drain and refill with fresh water every 4 days. In commercial spas or hot tubs with average use, drain and refill with fresh water every 8 days. Residential spas and hot tubs should be drained and refilled with fresh water every 60 days. Before refilling, clean the sides with a non-abrasive, low-foaming cleaner and rinse thoroughly each time the spa or hot tub is drained. Keep pH between 7.4 and 7.8 and never allow it to fall below 7.0. Maintain total alkalinity of 100 to 150 ppm at all times. Use a good test kit often to test bromine residual, pH, and total alkalinity.

**STORAGE AND DISPOSAL.** Keep product dry in closed container when not in use. Store in a cool, dry, well ventilated area away from heat, open flames and organic chemicals. Do not reuse empty container. Place empty container in trash collection or dispose in approved landfill area or bury in a safe place.
