ACCEPTED

SEP 21 1989

Under the Federal Insecticide,
Fungicide and Rodenticide Act
as amended for the pesticide
registered under
EPA Reg. No. 1729-132

STATEMENT OF PRACTICAL TREATMENT

- IF SWALLOWED:** Seek medical attention promptly. Do not induce vomiting. Do not drink alcohol. Drink at least 8 ounces of water (not to exceed 0.23 oz. per pound in a child).
- IF ON SKIN:** Remove contaminated clothing immediately. Brush off excess chemical and wash skin with large volumes of soap and water, flushing the skin with water for at least 15 minutes. If skin irritation develops, seek medical attention.
- FOR EYE CONTACT:** Irrigate eyes with large volumes of room temperature water for at least 15 minutes, then seek medical attention promptly.
- NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. CORROSIVE. Causes eye and skin damage. Harmful or fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public water unless in accordance with an NPDES permit. For guidance, contact your regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS

Strong oxidizing agent. Mix only with water. Use clean, dry utensils and equipment. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, hazardous gases and possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. If necessary, flood with large volumes of water.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

BACK PANEL SPA BROM TABLETS (Continued)

When used as directed, SPA BROM TABLETS are effective as a spa and hot tub water sanitizer and disinfectant. To keep spa and hot tub water sparkling clean and odor free, place SPA BROM TABLETS in a feeder. Use three tablets per 100 gallons, or fraction, of water to be treated. Add new tablets as needed to maintain an active bromine residual between 2 to 4 ppm in residential spas and 4 to 6 ppm in commercial spas. The feeder, filled with SPA BROM TABLETS, should then be operated as per manufacturer's recommendations. A Spa Brom Tablet weighs about 0.7 oz. (20 grams). The pump and filter should be operated for at least three hours every day. To conserve energy, use the heater only when the spa or hot tub is to be used. Do not heat water above 104°F. Keep the spa free of leaves and other debris. Backwash or clean the filter often. In heavily used commercial spas or hot tubs, drain and refill with fresh water every 4 days. In commercial spas or hot tubs with average use, drain and refill with fresh water every 8 days. Residential spas and hot tubs should be drained and refilled with fresh water every 60 days. Before refilling, clean the sides with a non-abrasive, low-foaming cleaner and rinse thoroughly each time the spa or hot tub is drained. Keep pH between 7.2 and 7.6 and never allow to fall below 7.0. Maintain total alkalinity of 100 to 150 ppm and calcium hardness of 150 to 300 ppm at all times. Use a good test kit often to test bromine residual, pH, total alkalinity, and calcium hardness.

STORAGE AND DISPOSAL

Keep product dry in tightly closed original container when not in use. Store in a cool, dry, well ventilated area away from heat, open flames, sunlight, and other chemicals. DO NOT REUSE EMPTY CONTAINER. Rinse empty container thoroughly with water and discard in trash.
