SPA PROM<sup>®</sup> MINI PAK II

Under the  
Fungicide  
as an  
registered

DISINFECTANT FOR RESIDENTIAL SPAS AND HOT TUBS

ACTIVE INGREDIENTS:

1-Bromo-3-chloro-5,5-dimethylhydantoin. . . . . 92.5%

INERT INGREDIENTS . . . . . 7.5%

Available Bromine 61%

Available Chlorine 27%

DANGER

KEEP OUT OF REACH OF CHILDREN

SEE FIRST AID AND OTHER PRECAUTIONS ON BACK PANEL

EPA REG. NO. 1729-\_\_\_\_\_

EPA EST. NO. 7011-MI-1

NET WT. 1.58 LB. (717 g.)

WILLIAMS CHEMICAL COMPANY  
100 Airport Industrial Park Drive  
Marietta, GA 30062

A Division of Great Lakes Chemical Corporation

1739-134

STATEMENT OF PRACTICAL TREATMENT: If swallowed, feed bread soaked in milk, followed by olive oil or cooking oil. Seek medical attention immediately. In case of skin contact, brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation develops, seek medical attention. In case of eye contact, flush eyes with cold water for at least 15 minutes. Seek medical attention promptly.

PRECAUTIONARY STATEMENTS. HAZARDS TO HUMANS AND DOMESTIC ANIMALS. DANGER. CORROSIVE. Causes eye and skin damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS. This product is toxic to fish. Do not discharge into lakes, streams, ponds or public water unless in accordance with an NPDES permit. For guidance, contact your regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS. Strong oxidizing agent. Mix only with water. Use clean, dry utensils and equipment. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, hazardous gases and possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. If necessary, flood with large volumes of water.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

When used as directed, Spa Brom Mini Pak II is effective as a residential spa and hot tub water disinfectant. To keep spa and hot tub water sparkling clean and odor free, place one or more Spa Brom Mini Paks in the skimmer basket or directly in the water by hanging them on the thermometer line near a return.

A sufficient number of Mini Paks must be used to maintain constant active bromine residual of 2 to 4 ppm in residential spas or hot tubs. Normally, one Mini Pak for each 200 gallons, or fraction, of water will be sufficient to maintain bromine levels within these ranges. As the Spa Brom dissolves, additional Mini Paks should be added as needed to maintain proper bromine levels. The pump and filter should be operated for at least three hours every day. To conserve energy, use the heater only when the spa or hot tub is to be used. Do not heat water above 104°F. Keep the spa free of leaves and other debris.

1729-134

Backwash or clean the filter often. Residential spas and hot tubs should be drained and refilled with fresh water every 60 days. Before refilling, clean the sides with a non-abrasive, low foaming cleaner and rinse thoroughly each time the spa or hot tub is drained. Keep pH between 7.4 and 7.8 and never allow it to fall below 7.0. Maintain total alkalinity of 100 to 150 ppm at all times. Use a good test kit often to test bromine residual, pH, and total alkalinity.

STORAGE AND DISPOSAL: Keep product dry in tightly closed original container when not in use. Store in a cool, dry, well ventilated area away from heat, open flames, organic chemicals and sunlight. DO NOT REUSE EMPTY CONTAINER. Rinse empty container thoroughly with water and discard in trash.
