EPA REG. NO. 1730-72
APRIL 28, 1988

CARTON FRONT

MAXFORCE[®]

insecticide

PHARAOH ANT KILLER

KILLS PHARAOH ANTS AND COMMON HOUSEHOLD ANTS

FOR USE IN COMMERCIAL, INDUSTRIAL AND RESIDENTIAL AREAS

Active Ingredient
Hydramethylinon [tetrahydro-5,5-dimethyl-2-
(1H-pyrimidin-2-yl)-3-(4-trifluoromethylphenyl)-
1-[2-[4-(trifluoromethyl)phenyl]ethoxy]-
2-propenyl]phosphorothioate] 98.1%
INERT INGREDIENTS 0.9%

CAUTION:
KEEP OUT OF REACH OF CHILDREN
(See Directions and Cautions on Back)

CONTAINS: 24 Child-Resistant Bait Stations
Total Net Weight 1.27 oz. (36g.)

CARTON BACK

PHARAOH ANT KILLER

NOW, YOU NO LONGER HAVE TO WAIT MONTHS TO GET PHARAOH ANTS UNDER CONTROL WITH MAXFORCE PHARAOH ANT KILLER. YOU WILL SEE RESULTS WITHIN ONE WEEK!

MAXFORCE Pharaoh Ant Killer contains a patented bait formulation which kills Pharaoh ants and other common household ants. When properly used, MAXFORCE will attract foraging worker ants to the bait station. The ants will feed on the bait which contains Hydramethylinon, a delayed action stomach poison. Then, the worker ants will take some of this bait back to the nest where they will pass it on to destroy the queen and the entire colony. MAXFORCE will kill both adult and larval ant forms.

Do not use residual sprays with or near the MAXFORCE bait stations, as the worker ants must remain alive to carry the bait back to the queen and immature workers. Residual sprays may cause worker ants to spread out and form secondary colonies. MAXFORCE Pharaoh Ant Killer works because it is non-repellent and thus will not cause secondary colony formation.

MAXFORCE has no insecticide odor and it is child-resistant and easy to use. It may be used for the control of ants wherever they are a problem (e.g. hospitals, nursing homes, residential establishments, warehousing and commercial establishments, food service, food manufacturing and food processing facilities, laboratories, computer and electronic equipment facilities, pet shops, zoos, buses, boats, and trains).

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

1. Simply place each bait station indoors immediately next to ant trails or close to areas where ants are numerous. Nests are usually located in dark, humid and warm areas close to a water and food source. For maximum effectiveness in Pharaoh ant control, MAXFORCE should be placed in or near wall voids, electrical outlets (if wiring permits), potted plants, waste-paper baskets, garbage cans and sinks. MAXFORCE can be placed in cabinets, next to food and dishes, near sensitive equipment or anywhere your ant problem occurs.
2. For normal infestations, you should use 3 MAXFORCE Pharaoh Ant Killer bait stations in an average size room. For heavier infestations, you will need additional bait stations in each room. If infestation persists beyond two weeks, relocate bait stations or use additional bait stations.
3. The stickers provided in the box can be used to attach MAXFORCE to vertical surfaces if desired.
4. Do not spray the bait stations. Avoid placing the bait stations on freshly sprayed surfaces.
5. Increased ant activity may be seen near the bait stations immediately after placement for short periods but you can expect to see less activity within one week. After placement, ant trails may be observed between the bait stations and the nests. For best results, do not interfere with the ants or the stations during their use because ants must carry the bait back to destroy the queen and colony.
6. Replace all bait stations every 3 months for continuous control of ants.

PRECAUTIONARY STATEMENTS:

CAUTION HAZARDS TO HUMANS May be harmful if swallowed.

STATEMENT OF PRACTICAL TREATMENT: If swallowed, drink two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention in case of emergency, call collect, day or night, 201-836-3100.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Do not remove baits from container. Wrap used containers and put in a garbage can.
