COMBAT Ant Control System

FORMULA II™

COMBAT® Ant Control System Formula II contains a unique patented insecticide formulation. COMBAT bait trays are effective because ants carry bait back to destroy queen and entire colony. And COMBAT has no insecticide odor, is child-resistant and easy to use. It even kills the ants you don't see, back in the colonies where they live. COMBAT kills common household ants, including grease and sweet eating ants, such as: Argentine, black carpenter, cornfield, little black, odorous house, pavement and fire ants.

DIRECTIONS FOR HOUSEHOLD USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

(Note: Do not remove or puncture while label on bait trays.)

1. Simply place each bait tray indoors or outdoors right by ant trails or close to areas where ants are numerous. For heavy infestations, you may need more than one box of COMBAT Ant Control System Formula II. COMBAT can be placed in cabinets, next to food and dishes, or anywhere your ant problem occurs.
2. Increased ant activity may be seen near the bait trays for short periods and you can expect to see less activity within one week. For best results, do not interfere with the ants or the tray during its use because ants must carry the bait back to destroy the queen and colony.
3. Replace all trays every 3 months to keep ants from reappearing.

Here's how COMBAT works.

EFFECTIVENESS GUARANTEE: If COMBAT does not provide satisfactory ant control, return all 3 bait trays for a full refund to: Consumer Affairs, American Cyanamid Company, 697 Route 46, Clifton, New Jersey 07015.
